Tyre Labelling Information

For information regarding the Tyre Labelling Regulation for passenger cars that became effective November 2012 under European Regulation (EC) No. 1222/2009 please refer to the information below.

Vehicle / Tyre labels

				Fuel efficiency [1]	Wet Grip [2]	External Rolling Noise [3]	
Name	**Wheel size**	**Tyre supplier**	**Tyre size**	**Grade**	**Grade**	**Grade**	**Result (dB)**
Picanto	13	Hankook	155/70R13	F	C		69
Picanto	14	Hankook	165/60R14	F	C		69

Sorento	17	Nexen	235/65R17	C	C		74
Sorento	18	Nexen	235/60R18	C	C		74
Sorento	19	Nexen	235/55R19	C	B		74

[1]) Fuel Efficiency Grade

Tyres with low rolling resistance save fuel and cut CO2 emissions. A Grade tyres deliver the best fuel efficiency, with each subsequent grade through to G signalling an increase in fuel consumption.

[2]) Wet Grip Grade

Grip in wet conditions is key for safe driving. Performance of the tyre in the wet is graded from A (best grip) to G (worst grip).

[3]) External Rolling Noise Grade

This is the external noise made by the tyre and is measured in decibels. The more waves shown on the label, the louder the tyres.
