The Power to Surprise™

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Mohave, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors Corporation (www.kiamotors.com) -- a maker of quality vehicles for the young-at-heart -- was founded in 1944 and is Korea's oldest manufacturer of motor vehicles. As part of the Hyundai-Kia Automotive Group, Kia aims to become one of the world's premier automotive brands. Over 2 million vehicles a year are produced in 13 manufacturing and assembly operations in eight countries which are then sold and serviced through a network of distributors and dealers covering 172 countries. Kia today has over 44,000 employees worldwide and annual revenues of over US\$2 billion. It is the major sponsor of the Australian Tennis Open and an official automotive partner of FIFA -- the governing body of the FIFA World Cup. Kia Motors Corporation's brand slogan -- "The Power to Surprise" -- represents the company's global commitment to surpassing customer expectations through continuous automotive innovation.

Connecting to the new dynamic world
CADENZA

Technology given

dynamic shape

CADENZA

Take up-to-the-minute technology and blend it with luxury and style. What emerges is the Kia Cadenza - a car that at once seduces and reassures with its innovative attention to detail, distinctive lines and dynamic presence. From the moment its bold, balanced profile captivates your eye to the point when you take the wheel and drive, consummate sophistication is delivered. A luxury sedan for the here and now, setting a benchmark for the future of driving enjoyment.

Connecting to the new dynamic world **CADENZA**

Making a statement, head on

Welcome to a balanced synthesis of power and purpose. The Cadenza sets itself apart with a confident stance emphasised by its dynamically-designed bumper, Kia's signature radiator grille and multi-spoke alloy wheels.

Every angle creates an impression

Broad, clean chrome mouldings add refinement, while combination rear lamps and dual exhaust outlets provide simple yet dramatic touches.

Style is standard specification

A long cabin proportion, dynamic side character lines and muscular wheel arches are just some of the design elements that make Cadenza a style leader.

But form is nothing without function. Every line of the Cadenza has been carefully thought out, every curve considered. Lowered ground clearance for lively performance, long wheelbase for added stability, shallow windscreen angle for superb aerodynamics. Everything makes perfect sense.

Here to perform

In the city, the Cadenza means business. It's a car with both style and the performance to back it up. From agile, nimble steering to precision-controlled handling, everything is geared to fit your driving needs - day and night.

The art of self-reflection

Your car should be an expression of your life. Confident and forward-thinking, embracing innovation while acknowledging the tried-and-tested. The Cadenza fulfils this role perfectly, with its innate characteristics effortlessly matching your own.

Design that inspires

The elegant, advanced ergonomics of the Cadenza's dashboard merge seamlessly with the latest technology. All of it working in harmony through intuitively operated controls to provide a cohesive, stimulating and wholly enjoyable driving environment.

Supervision cluster with 3.5" colour TFT LCD: All the driving data you need, including a built-in trip computer, is delivered with clarity, enhanced visibility and a luxurious feel.

Centre fascia: Purposeful, progressive and futuristic, with logically arranged switches and a fully integrated audio system. Everything comes together as it should.

Luxury that embraces

The ultimate interior entails two essentials: space and comfort. Both are given priority in the Cadenza, combining to provide luxury of the highest order.

Large overhead lighting console: Overhead lighting comprising LED map lamp, main interior light and LED room lamp give the cabin an understated aura of elegance.

Remote keyless entry system: When the smart key unlock button is activated, the exterior lamps illuminate for 15 seconds, the interior lamps for 30 seconds.

Puddle lamps: Welcome to the Cadenza. Puddle lamps on the underside of the rear view mirrors automatically light up when the car detects the smart key approaching.

Outside door handle lights: LEDs located on the inside of the exterior door handles also light up to herald your arrival.

Interior lighting: Indirect lighting discreetly mounted on the chrome trim of the dashboard sets the mood.

1. Vehicle locked

2. Driver identified - ready to unlock

3. Unlocked

Let the Light shine in

Take in all the beauty of the skies. The all-glass panorama sunroof of the Cadenza lets light flood into the interior space. For the kind of openness found only in a convertible.

Panoramic sunroof: Made entirely of glass and occupying three quarters of the roof, Cadenza's automatic panoramic sunroof gives occupants a sense of freedom. Built-in safety features also prevent injuries to probing hands and fingers.

Guiding the way

To follow the stars, you need a star performer. You've found it with the Cadenza. Let the onboard navigation system, with its advanced technology and user-friendly features, guide you on your way.

A soundtrack for the journey

As you'd expect, the Cadenza's sound system provides an abundance of depth, detail and clarity that perfectly complements the car's upscale cabin ambience.

◀ **Infinity sound system:** 12-channel Infinity premium sound system, with a choice of three audio settings.

◀◀ **In-dash 6-CD changer:** It's not just the sound quality that's superior, it's the ease of operation too. Cadenza's 6-CD changer is stylishly integrated into the dashboard.

Towards your destination

An expression of power, an expression of reliability. But most of all, an expression of enjoyment. This is what driving is for you. And out on the road, you need a complete car to make it all happen.

A photograph of a white Kia Cadenza driving on a road through a desert landscape with sand dunes. The car is seen from the front, and the road curves through the dunes under a clear sky.

Full control through any curve

As the road bends away in front of you, you can relax knowing that state-of-the-art technology brings superior stability into play.

Amplitude Selective Damper: Thanks to a separate piston structure that soaks up high frequency, low-amplitude shocks from the road surface, Amplitude Selective Damper (ASD) shock absorbers result in ultimate riding comfort.

With power comes reliability

Performance with durability

Cadenza's power comes courtesy of a new Lambda II 3.5 litre engine, providing improved powertrain performance. Durability is built in, an essential when driving in high temperature climates. Other advantages include reduced vibration, low noise when idling and accelerating, an eco oil filter that lowers maintenance costs, and reduced overall weight to enhance fuel economy.

Push button start/stop: Even before you start the engine, the sporty overtones are clear. There's no need to turn a key, just push the button. Starting and stopping the ignition become an exercise in convenience.

1

3

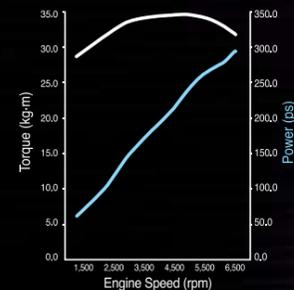

1. Organ accelerator pedal: As befits a luxury sedan, the Cadenza's accelerator pedal is designed for maximum comfort by allowing your foot and ankle to move in the same trajectory as the pedal itself.

2. Electric Parking Brake (EPB): Activated via two computer-controlled motors attached to the brake callipers, the Electric Parking Brake prevents the car from rolling away when stationary. It automatically releases as soon as you depress the accelerator pedal.

3. 6-speed automatic transmission: Next generation Kia technology reduces the number of transmission parts, while lowered weight provides superior performance and fuel economy.

Lambda II 3.5L gasoline engine:

A fuel efficient, lightweight unit generating a maximum 290 ps at 6600 rpm. Composed of an aluminium cylinder block, Cadenza's powerful engine features dual continuously variable valve timing, a silent timing chain system to minimise noise, and a variable intake system to maximise efficiency.

Primed for safety

If safety is a matter of arming yourself, the Cadenza carries out the task admirably. A rigid, high-strength steel structure with reinforced side sills means energy is effectively absorbed and dispersed in the event of a collision. The Brake Assist System deploys in an emergency situation, sensing brake pedal speed and applying increased pressure to ensure a shorter braking distance. Airbags at the front and sides offer protection for both driver and passengers.

1. Front/rear, side and curtain airbags: Cadenza comes with a total of eight airbags for maximum occupant protection. An electronic sensing system monitors impact force as well as the presence of a front passenger and seat-belt use, and controls airbag inflation accordingly.

Increased size, increased performance: The size of the front brake caliper has been increased to secure optimum braking performance. Just one part of Cadenza's active safety features that puts your driving needs first.

2. Electro-chromic mirror & rear view camera: While the rear view mirror senses headlight glare from cars behind and dims accordingly, a rear view camera ensures unobstructed all around vision.

3. Active headrests: Headrests move forwards and up within milliseconds of an impact, cushioning the head and helping to prevent whiplash injuries.

4. Front and rear parking assist system: Ultrasonic sensors integrated into the rear bumper warn of any obstacles when manoeuvring into a parking space.

1. Radiator grille: standard versions convey luxury and sophistication. Because a premium sedan leads from the front.

2. Chrome outside door handle: Don't just see the elegance, feel it too. Stylish door handles integrate beautifully with Cadenza's smart key technology.

3. Gull wing rear view mirrors: Outside mirrors fold up and back when the driver exits the car to provide a stylish touch, while an enhanced aerodynamic design results in less wind noise.

4. Safety power windows: Electric windows stop automatically when they sense an obstruction such as a child's hand for optimum reassurance.

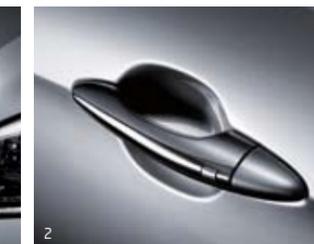

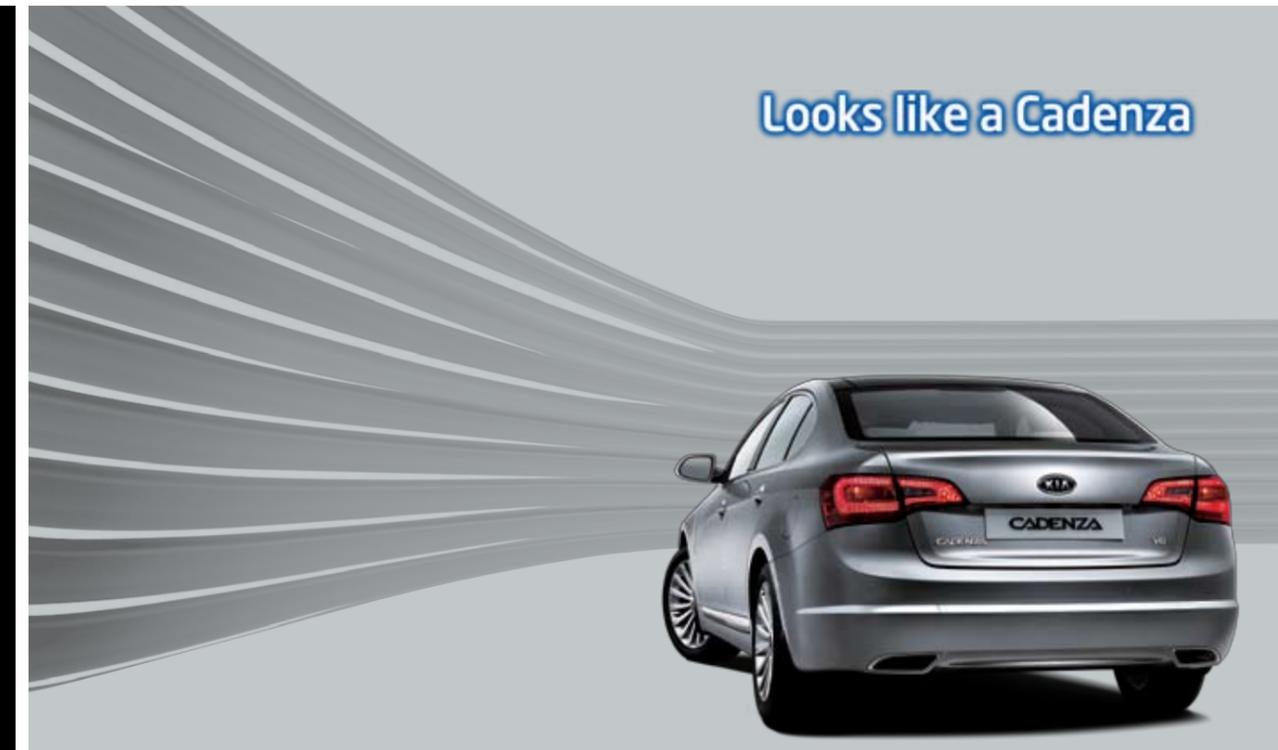

5. Rear parking assist system: Sensors integrated into the rear bumper warn of any obstacles when parking.

6. UV cut windshield glass: Keeps the interior temperature cooler and improves air conditioning efficiency by blocking heat from the sun.

7. Luggage compartment: Large and spacious for all your travelling needs, the boot space can transport four large golf bags with ease.

8. Bumper-integrated dual exhaust: For a sleek, luxurious image that at the same time conveys high performance and power.

Looks like a Cadenza

White Special Package

An ultra-luxurious interior package that lets you tailor your Cadenza's interior to reflect your personality.

Premium package features plus:

- White Color Special Leather Seat [Napa Leather]
- Tricot Suede Trim Covering [Pillar Trim, Head lining, Suv-visors, Rear Package Tray]
- Smart key & Button starter + light on the outside handles [Pocket Lighting]+ Electric folding & LED turn signal with puddle lamp Outside mirror
- Rear parking assistant system
- Chrome Garnish Mood Lighting [Crash-pad, Door trim]
- Mud Guard [Front & Rear]

Premium Package

For discerning drivers, this high-specification interior package creates an atmosphere of elegance.

- Radiator grille [Chrome outline & black horizontal bar]
- Projection headlamps & HID (Xenon) headlamps [Black bezel headlamp]
- A/T indicator panel tray & cup-holder cover [Real aluminium]

1. Rear armrest with remote control: Folding down between the rear seats for added passenger comfort, Cadenza's rear armrest features a remote control that lets you operate the independently-warmed rear seats and audio system.

2. Rain sensors: Sensors behind the rear view mirror automatically activate the windscreen wipers when rain falls.

3. Driver seat cushion extension: Offers more comfort through a larger support area for the thighs.

4. Auto defog system: using sensors attached to the windscreen, condensation is prevented from fogging up inside windows, thus enhancing visibility and safety.

5. IMS (Integrated Memory Seat) system: The integrated memory system controlling the eight-way power adjustable driver seat also memorizes desired positioning of the rear view mirror.

6. Auto cruise control: Allows driving at a constant set speed for convenience and increased fuel efficiency.

7. Heated steering wheel: Steering wheel surface can be set to heat up, for added comfort in winter.

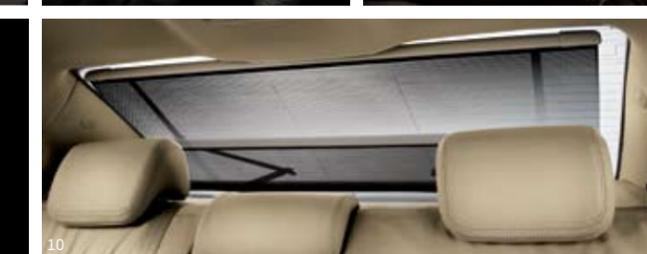

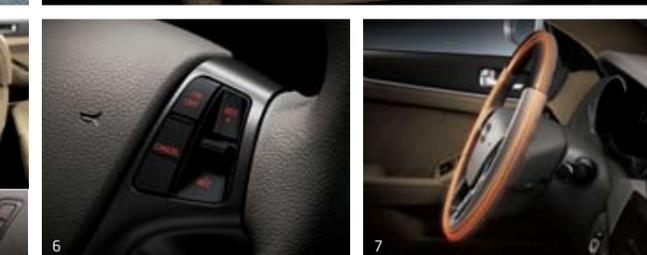

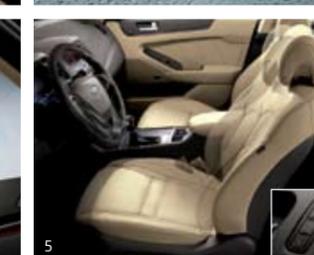

8. Door scuff: Door scuff sills protect against wear and tear because luxury of this kind deserves looking after.

9. Aux and iPod®: Enjoy virtually any music source in your Cadenza with built-in audio streaming, AUX, USB and iPod® connectivity plus high-fidelity output.

10. Rear sunshade: Activates at the touch of a button to block excessive glare and heat from the sun.

Take a seat and relax

Massaging Driver's Seat: Using air cells that continuously contract and expand, the Massaging Driver's Seat massages the driver's back, helping blood circulation and relieving fatigue. Especially useful on long drives, it helps keep you alert and attentive.

As eco-conscious as you are

So you value sustainable living? We do too. That's why we take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

We set up an environmental research centre to spearhead our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow for you, your children and all of us. The concept of eco-friendly cars is adhered to through out all cycles of a vehicle's life. From design through to recycling, we create

innovative products, ensuring state-of-art Design for Recycling (DfR) guidelines. Wherever possible, recycled and recyclable materials are being used in the production of every Kia. Even at the end of your car's life, one of our environmental targets is the eco-friendly return and treatment of end-of-life vehicles. Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection.

As you see, what you do on a small scale with your household refuse, we at Kia Motors do on a large scale.

INTERIOR COLOURS

Brown & Beige

For modernity with elegance, this scheme combines brown trim and panels with beige cloth or leather upholstery.

Black & White

All the style of black trim and panels, offset by futuristic white leather upholstery.

Black One-Tone

Contemporary and stylish, this interior scheme blends black trim and panels with black cloth or leather upholstery.
