Standing still doesn't satisfy us.

Inspiration doesn't strike at rest. It's born in motion, with eyes wide open to new possibilities. Movement wakes us up and sparks unprecedented thinking. At Kia, this is what drives us to keep pushing, seeking, and transforming. Relentless in our mission to build exciting, quality vehicles with the design, performance, rugged capability, and innovative technology to be more than a means of transportation, but a catalyst for inspiration. In this spirit, we created the Kia 2023 lineup of SUVs.

For every road to inspiration.

Award-winning SUVs
tackle the off-road or civilized world with equal grit and grace, courtesy of turbocharged engines,* advanced performance technologies, and outstanding hauling ability[1] — up to 5,500 lbs. with Telluride, and up to 3,500 lbs. with Sorento and Carnival MPV.[2]

Forward-thinking alternative-fuel models
include the revolutionary EV6 and our innovative Sorento, Sportage, and Niro electrified models, Kia's cutting-edge hybrid, plug-in hybrid, and all-electric utility vehicles that offer enhanced range,[3] efficiency, and versatility to take you farther than you ever imagined.

Kia Drive Wise[4]*
is a suite of standard and available advanced driver-assistance technologies that includes state-of-the-art systems for emergency braking,[4] lane keeping,[4] blind-spot monitoring,[4] and more, for extra peace of mind, wherever adventure calls you.

All-wheel-drive systems with Lock Mode*‡
and Snow Mode are offered on many Kia models to enhance handling, stability, all-weather confidence, and off-road capability, by automatically applying power and braking force to the appropriate wheels, helping to maintain course on low-grip surfaces.

*Optional features available only on certain trims. See Features page for availability. †Optional Towing Package required. ‡No system, no matter how advanced, can compensate for all driver errors and/or driving conditions. The latest tech for the greatest escapes.

Innovative technology and features*
are in the DNA of Kia's driver-focused cabins, with standard and available features that include Augmented Reality Head-Up Display,[5]* extra-large touch screens[5]* with high-resolution graphics, and 360-degree Surround View Monitor.[4]*

Kia Connect[6]
is Kia's available smart connectivity system that integrates with your compatible smartphone and smart speaker to perform convenient, helpful tasks such as Remote Start with Climate Control,[7] Find My Car, and Connected Routing. It even provides Wi-Fi Hotspot capability[8]* on certain models.

*Optional features available only on certain trims. See Features page for availability. 4-8 See inside back cover for endnotes. Telluride SX Prestige X-Pro AWD shown.

2023 Niro HEV

With best-in-class 53 MPG combined (HEV LX, EX, SX),[40] the longest driving range of any crossover in its class,[40] and a thoughtful, intuitive design, the all-new Niro HEV is a powerfully efficient hybrid that's made to inspire from the inside out. Its spacious, sleek, driver-focused interior features a 20.25-inch integrated Panoramic Display[5] and premium tech for state-of-the-art connectivity. Cutting-edge "Green Zone" technology automatically switches to all-electric mode when driving within hospital and school zones. And its advanced safety technology includes standard Blind-Spot[4] and Collision-Avoidance[4] features to give you greater confidence, wherever you roam.

HEV SX Touring, shown in all images, gets 49 MPG combined[23*] and 544 miles of total driving range.[23*]

2023 Niro PHEV

The all-new Niro Plug-In Hybrid (PHEV) combines the qualities of our hybrid and fully electric Niros to give you the best of both worlds. Its powerfully efficient plug-in hybrid electric powertrain delivers a total of 180 horsepower, an impressively long driving range, and the ability to plug in, charge up, and go all-electric at the push of a button — so you can head out for the day and rest assured that should you exceed your all-electric range, PHEV will kick into hybrid mode automatically. And like all Niro models, PHEV's intuitive cockpit keeps you connected with standard advanced driver-assistance technologies such as Blind-Spot Collision Warning,[4] along with available features such as a 20.25-inch integrated Panoramic Display with Navigation.[5]

Results reported June 2022. Actual results may vary depending on options, driving conditions, driving habits, and your vehicle's condition. Verification of these results should not be attempted. Always drive safely and obey all traffic laws. **42.** EPA-estimated 253-mile range based on a full battery charge. Actual mileage and range will vary with options, driving conditions, driving habits, vehicle maintenance, charging practice, battery age, weather, temperature, and your vehicle's condition. Battery capacity will decrease with time and use. For more information on range, please see www.fueleconomy.gov. **43.** Charge time is based on 77 degrees Fahrenheit battery temperature, and under 10% battery state of charge, with the following amps to kW requirement: 50 kW CCS DC Fast Charger at 125 amps; 100 kW CCS DC Fast Charger at 200 amps. Battery capacity will decrease with time and use. Frequent use of DC fast charging can negatively impact battery performance and durability, and Kia recommends minimizing use of DC fast charging. Please check your local building codes and guidelines for installation of a Level 2 charger. **44.** Horsepower and cargo space claims based on 2022 and 2023 (minivan) Multi-Purpose Vehicle class as of August 2022. Multi-Purpose Vehicle class as determined by Kia segmentation. **45.** Reclining seat and/or elevating footrest can reduce the effectiveness of the safety restraint system and may lead to additional injury in an accident.
