1. Introduction to UVO

UVO - **"Your Voice"** is the latest evolution in connected car & infotainment, which is a testimony of Kia's continued quest to provide advanced technology that make driving safer, convenient & enjoyable.

UVO services are available on both 26.03 cm (10.25") HD Touchscreen Navigation Infotainment System & UVO smart phone app.

Note: UVO is a premium connected car solution and is available in limited variants.

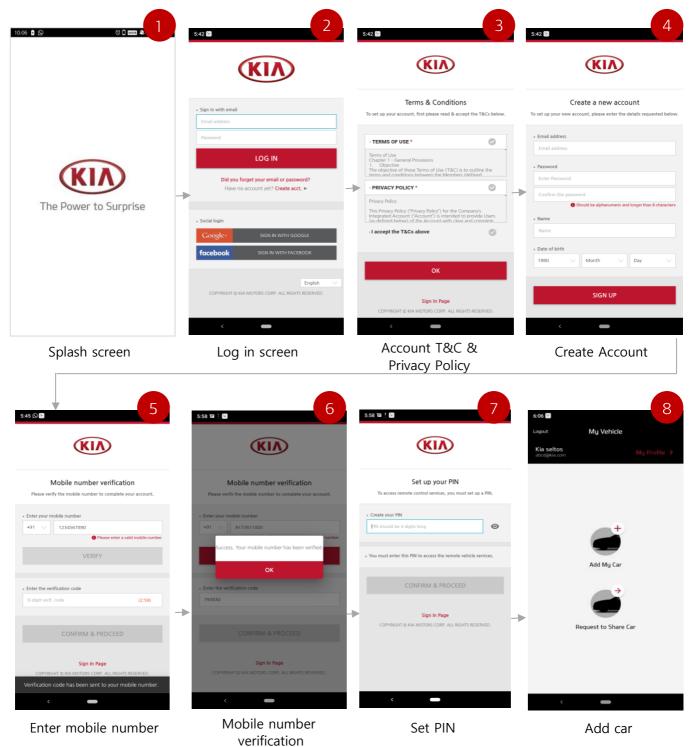

2. UVO Activation/Enrollment

UVO services can be activated after delivery date. (Free subscription starts from the date of delivery) It is mandatory to enter "vehicle delivery date" in DMS (Dealer Management System) for successful registration. UVO activation lead time is around 2 hours, after DMS data entry.

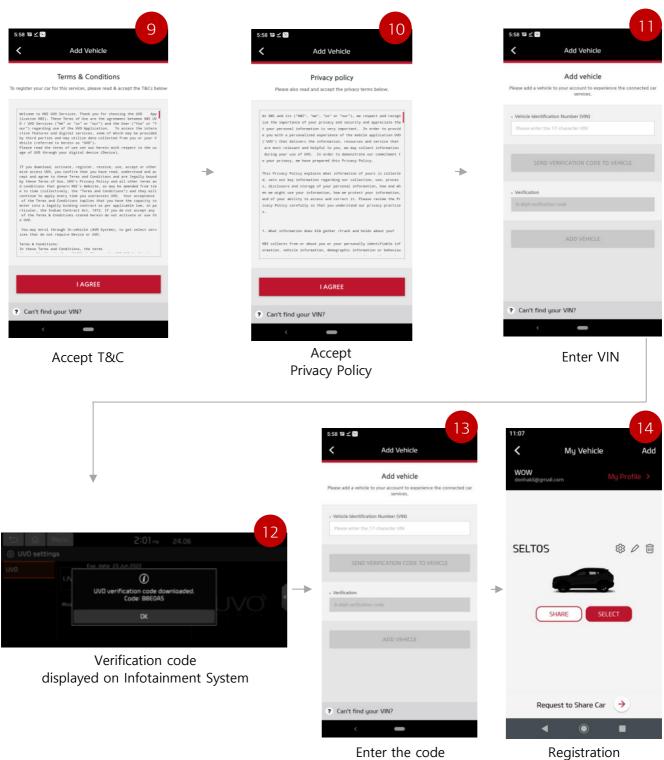

I. UVO Enrollment through smartphone app- Full UVO service activation

Download the UVO app from App Store (IOS) or Google Play (Android) & perform the following steps.

Continue.....

(displayed on

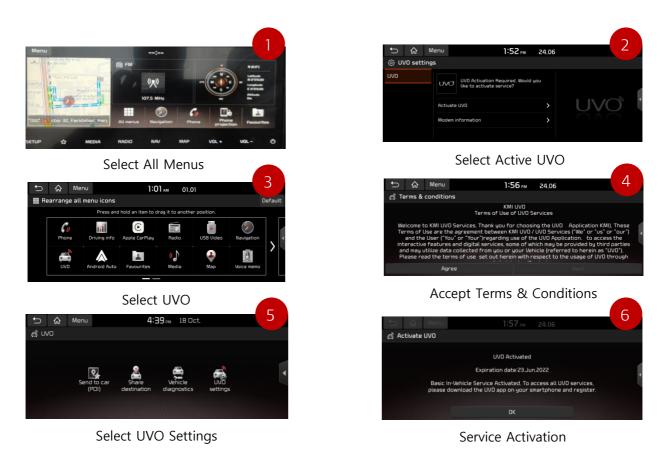

infotainment system

Registration successful

II. UVO in-vehicle services activation only

"Turn ON" the car & perform the following steps

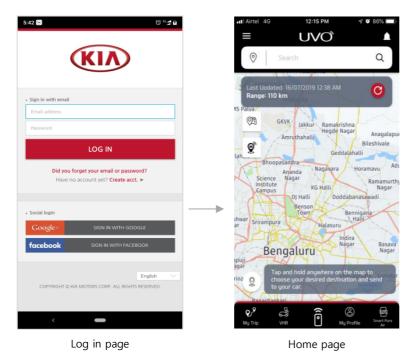

Key Points:

- Service available- ACN, SOS, RSA, Live traffic information, Vehicle diagnostics, Desired destination search, AI voice command
- These services does not acquired a smartphone app for usage nor has privacy issues and which are directly related to the driver's safety

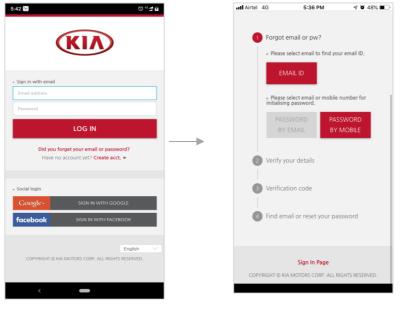

3. UVO Log In

Log in: Log in with user name & password. Once logged in into application it will navigate to the UVO home page.

Forget Password: Password can also be reset by clicking on Forgot Password.

Log in page

Password creation page

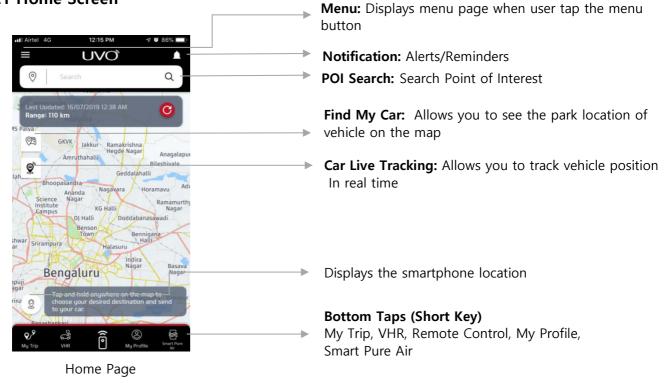

4. UVO Application Dashboard

After successful sign in into application it will navigate to the UVO home page.

(Note: When application is opened for the 1st time, it displays quick tutorials).

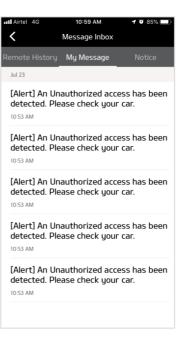

4.1 Home Screen

4.1.1 Notification

It includes Remote History, My Message and Notice.

Remote History My Message Notice

Remote History

4.1.2 Find My Car

Find your car parking location remotely with UVO app.

Function: Tap Find My Car icon (highlighted) → Enter PIN → Find my car display → Tap on the "Find My Car icon" \rightarrow Horn + light the car or share the location with others.

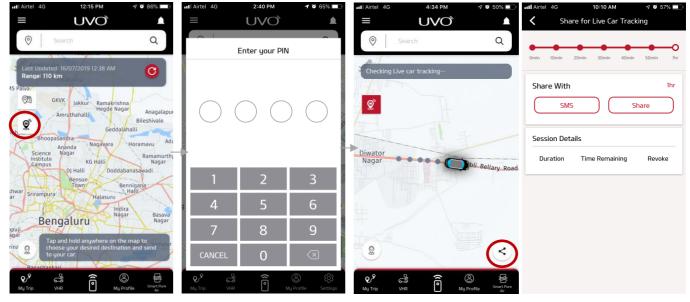

4.1.3 Live Car Tracking

Always know where your car is with Live car tracking.

sharing (through SMS/WhatsApp/messenger etc.)

Function: Tap Live Tracking car icon (highlighted) \rightarrow Enter PIN \rightarrow Live Car Tracking display \rightarrow Car location

Press live car tracking

Enter PIN

Live car tracking

Car location sharing

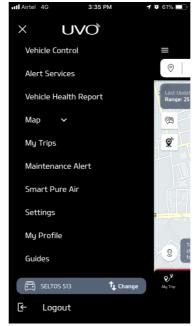

4.2 Home Page Menu

It will navigate to the UVO Services.

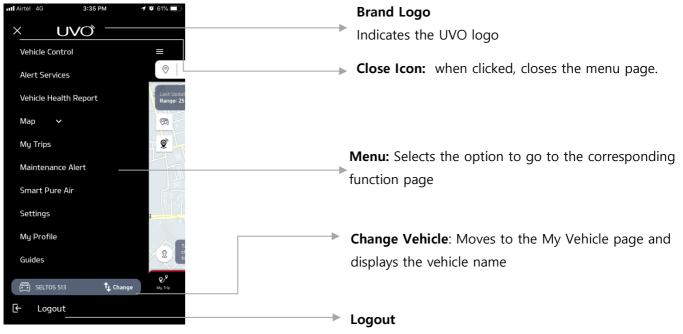

Home page

Home page menu

4.2.1 Home Page Menu details

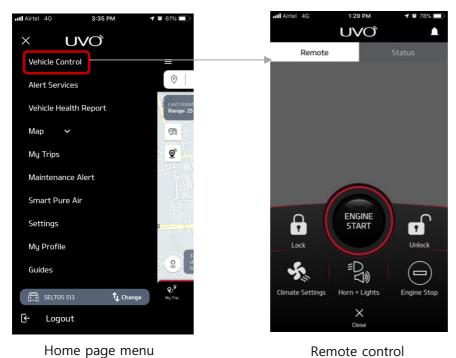

Home page menu

4.3 Vehicle Control

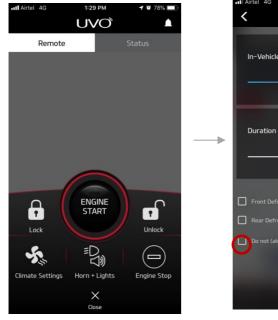

It includes all the remote functionalities & car status features.

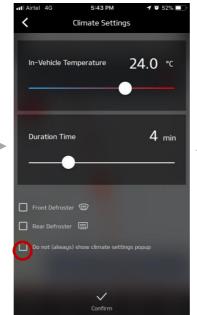

4.3.1 Remote Engine Start (Available on Automatic only)

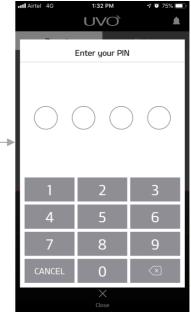

Start the engine remotely with UVO app.

Function: Press engine start \rightarrow Set temperature & duration \rightarrow Enter PIN \rightarrow Pop up notification that remote command has been sent \rightarrow Remote command success \rightarrow AC, Smart Pure Air ON.

Press engine start

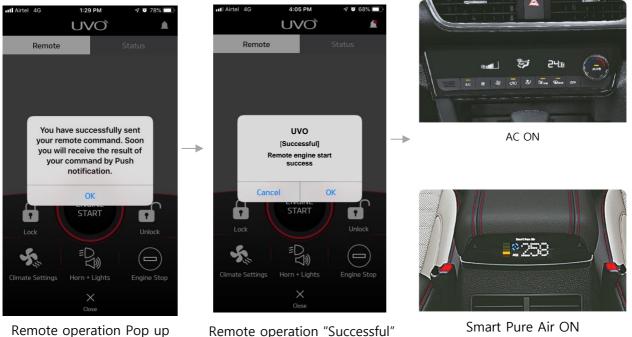

Set temperature & duration (Customized AC setting screen)

Enter PIN

Message

Remote operation "Successful" Pop up message

Note:

- If Remote command fails, pop-up message will appear on the screen
- All the Remote command history will be available on notification tab

Pre-condition:

- All doors must be closed & locked
- Hood/trunk must be closed
- Vehicle transmission is in "P" (Parking)
- Ignition must be in OFF position
- Vehicle must have been started within the last 168 hours

Remote Engine Start → Stop

- Remote engine start will automatically stop within the customized time duration settings through UVO app (2-10 minutes)
- Open the doors from inside the vehicle when remote engine start in progress
- Shift gears from inside the vehicle when remote engine start in progress without a smart key inside
- Press the brake inside the vehicle
- Low Fuel level & Low Battery level
- Emission DTC is triggered

Remote Start mode → Normal mode

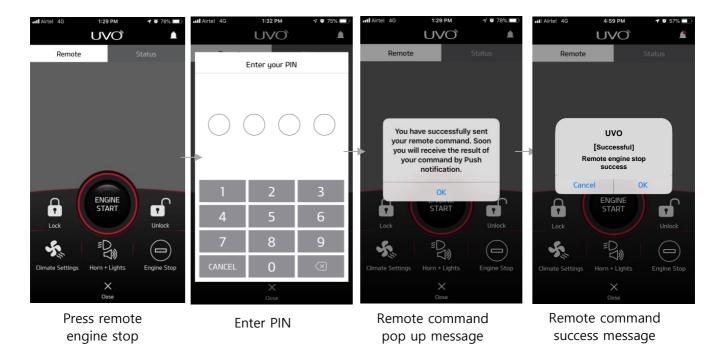

• Door unlock using remote key \rightarrow Open door \rightarrow Press the brake

4.3.2 Remote Engine Stop (Available on Automatic only)

Stop the engine remotely with UVO app.

Function: Press engine stop → Enter PIN → Pop up notification that remote command has been sent → Remote Command success → Engine stop

Note:

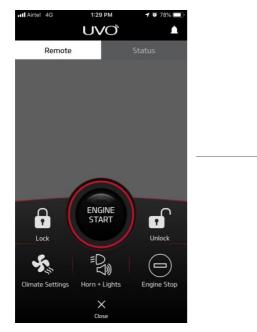

- If Remote command fails, pop-up message will appear on the screen
- All the remote command history will be available on notification tab

- Vehicle must be started with remote engine start
- Vehicle must not be in motion

4.3.3 Remote AC Control (Available on Automatic only)

Set the desired AC temperature in your car before stepping in, remotely with UVO app. **Function:** Press climate settings \rightarrow Set temperature & duration \rightarrow Confirm

Press Engine Start

Set temperature & duration (Customized AC setting screen)

Note: Repeat "Remote Engine Start" Function to remotely ON the AC.

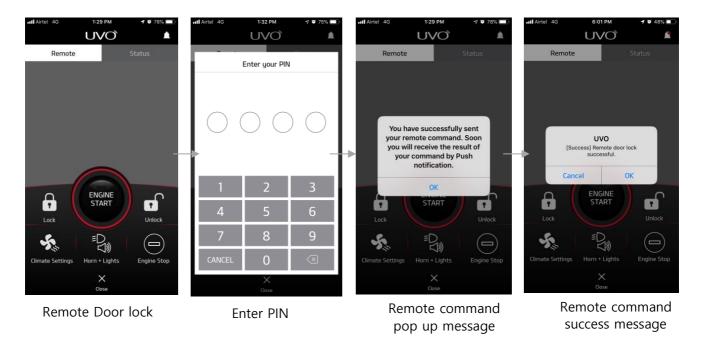

- All doors must be closed & locked
- Hood/trunk must be closed
- Vehicle transmission is in "P" (Parking)
- Ignition must be in OFF position
- Vehicle must have been started within the last 168 hours

4.3.4 Remote Door Lock

Lock your car remotely with UVO app.

Function: Press Door lock \rightarrow Enter PIN \rightarrow Pop up notification that remote command has been send \rightarrow remote command success

4.3.4 Remote Door Unlock

Function: Press Door unlock \rightarrow Enter PIN \rightarrow Pop notification that remote command has been sent \rightarrow Remote command success

Note:

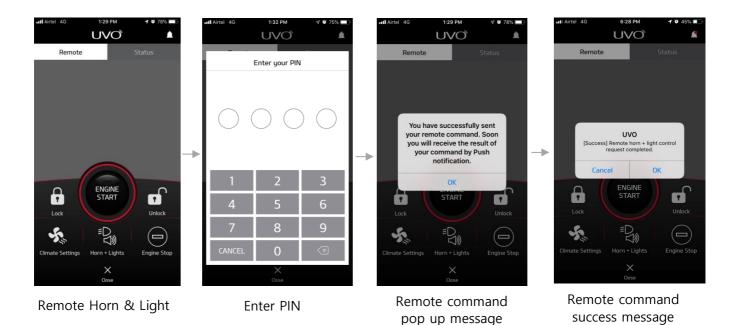

- If Remote command fails, pop-up message will notify
- All the remote command history will be available on notification tab

- Vehicle must not be in motion
- Vehicle must not have been started using remote start
- Vehicle must have been started within the last 168 hours

4.3.5 Remote Horn & Light

Find your car in large parking area / outside shopping center by remotely horn & light with UVO app **Function:** Press horn & light \rightarrow Enter PIN \rightarrow Remote command pop up message \rightarrow Remote command success

Note:

- If Remote command fails, pop-up message will notify
- All the remote command history will be available on notification tab

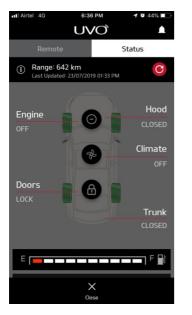

- All door must be closed & locked
- Ignition must be in OFF position
- Vehicle must have been started within the last 168 hours

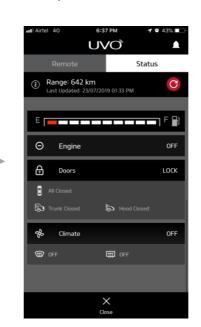

4.3.6 Remote Vehicle Status

Check your vehicle status with UVO app.

Function: Press status Tab \rightarrow Scroll down to see all parameters

Remote status

Remote status

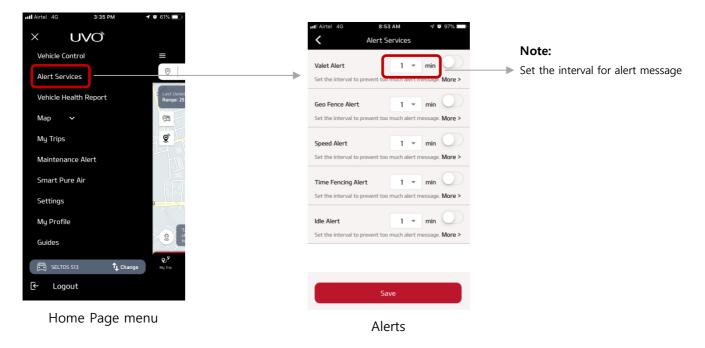

Remote vehicle status on following

- Engine ON/OFF
- Door lock/unlock
- AC ON/OFF
- Hood open close
- Trunk open/close
- Tyre pressure Status (In case of Low Tyre pressure the tyre colour will be changed to red)
- Fuel level information

4.4 Alert Services

Set safety alerts in your vehicle for a tension free vehicle ownership experience.

4.4.1 Valet Alert

Alerts, if the vehicle travels farther then pre- defined valet boundary, speed & idle time.

Function: Enable valet alert \rightarrow more \rightarrow select desired parameters from drop down
