

Instrument Cluster Recall OTA Update

Tasman MY26 | 11/05/2026

Dear Owners,

An important OTA Recall Update for the vehicle's Instrument Cluster (CLU) will be available from the 11th of May, 2026. This update is applicable to all variants of Model Year 2026 Tasman.

What's New

This Recall OTA software update is for the instrument cluster which possibly may display a blank screen or may not operate as intended.

A blank or slow-responding instrument cluster screen fails to display critical information such as the speedometer or warning lights.
