

Powernet Domain Controller Update

Sorento MY24 | 22/01/2025

Dear Owners,

An important OTA Update for the Powernet Domain Controller (PDC) will be available from the 14th of January 2025. This update is applicable to all variants of Model Year 2024 Sorento.

What's New

This OTA update relates to a recall released by Kia Australia and it improves the operation of the Turn Signal and Daytime Running Lights (DRL) to improve the visibility of your vehicle when driving.

We urgently request that you perform this update when possible.”
