

Integrated LED Headlamp Control Unit Update

EV9 | 24/04/2024

Dear Owners,

An OTA Update for the Integrated LED Headlamp Control Unit (ILCU) will be available from the 24th of April 2024. This update is applicable to all EV9 variants.

What's New

This OTA update provides the following improvement to the headlamp control system:

- Changes to the operation logic to prevent unnecessary use of the 12V auxiliary battery when the vehicle is not in use.

We hope that this OTA update will enhance your driving experience.
