Movement that inspires

High-end lifestyle that begins in a luxurious space filled with advanced technology

Carnival Hi-Limousine introduces a new concept of space with advanced, customized features that keep you fully connected while you bask in ultimate comfort. Indulge in the high-end lifestyle that everyone else can only dream about.

## A majestic, voluminous form that projects prestige

Dynamic, 3-dimensional touches create a unique sense of volume. An exclusive emblem and high roof convey Hi-Limousine's identity, while luxurious side steps and bumper guards capture the essence of sophistication.

## A high-end space for 4 people provides deep relaxation and creative inspiration

Premium features offer a differentiated lifestyle and enjoyment.

An integrated 7" touch-type control panel can be used to easily control the smart monitor, limousine seats, and foot massager. Independent rear limousine seats exclusively developed for the 4-seater provide comfortable rest in the middle of a hectic day.

### Rear seat tables

Exclusive, independent tables on the left and right seats of the 2<sup>nd</sup> row make it convenient to do work or eat a light meal. They can be stowed inside the seat console and be taken out easily as required.

### Foot massager

A foot massager in the front of the 2<sup>nd</sup> row can help relieve fatigue by massaging the back, sole, and heels of the feet.

### Rear seat wireless smartphone charging system

A wireless smartphone charging system on the left and right armrests of rear seats provides a smart convenience on a busy day.

※ A separate charging pad or phone case may be required depending on the smartphone model. The system may not be compatible with models that do not support the use of adaptors.

### LED hanger & Cargo underfloor storage compartment

An illuminated clothes rack on the top part of the luggage compartment makes it convenient to hang and access clothes, enabling you to find items easily even in dark spaces. Large capacity, multi-purpose storage boxes underneath the floor allow you to store diverse items such as golf accessories and briefcases.

### Cold/hot storage compartment

Beverages can be kept cold or warm.

### Rear seat storage box

A compartment in front of the 2<sup>nd</sup> row seats can store diverse items such as shoes and accessories for maximum convenience.

## A tailor-made space that offers the ultimate in comfort

With a design that is inspired by spaceships, the aesthetic finish of Hi-Limousine's interior space is as impressive as the extensive choice of high-tech equipment that the vehicle offers. Diverse convenience features can be customized to create the cozy atmosphere of a premium lounge for the ultimate relaxation and enjoyment in a car.

### 2nd row Premium Relaxation Seats (7-seater)

Backrests and cushion angles can be adjusted to your preferred settings at a mere push of a button to relax and alleviate fatigue in absolute comfort.

### Built-in air purifier

A HEPA filter and activated carbon/zeolite composite filter remove ultra-fine dust and harmful gases from the air for exceptional air quality.

### Pleated curtains

Pleated curtains on sliding door glasses, quarter glasses, and the tailgate glass protect the privacy of rear-seat passengers.

### Exclusive Hi-Limousine LED center room lamp / Ambient mood lamp

Lamps in the center of the high roof and the roof line complete a stylish and elegant space.

### 2nd and 3rd row LED reading lights

4 LED reading lights imbedded on the side of the high roof offer individual lighting for passengers in the 2<sup>nd</sup> and 3<sup>rd</sup> rows.

### 21.5" smart monitor

Watch terrestrial HD DMB or photos/videos/music using the HDMI or USB ports of the 21.5" LCD monitor.

### 1st and 2nd row heated/cooled cup holders

2 cup holders in the front and in the back of the console help maintain beverages hot or cold for extended periods of time.  
 \* The location and specifications of rear-seat, heated and cooled cup holders depend on the trim that is selected.

### Forward Collision–avoidance Assist

Alerts the driver when there is a danger of colliding with a car, pedestrian, or cyclist in front and applies the brakes automatically if the risk of a collision continues to increase. Also applies the brakes automatically while making a left turn in an intersection and there is a risk of colliding with an oncoming vehicle in the opposite lane.

### Blind–spot Collision–avoidance Assist

Warns the driver against the risks of a collision while changing lanes if the turn signal is activated and a vehicle is detected in the back in an adjacent lane. Automatically helps to control the vehicle if the risk of a collision continues to increase. Helps to apply the brakes automatically if a risk of colliding with a vehicle approaching from the back in an adjacent lane is detected while getting on the road after parallel parking.

### Lane Keeping Assist

Recognizes lanes and helps the driver keep the center of the lane.

### Highway Driving Assist

Automatically helps to keep the vehicle in the lane and control speed to maintain a safe distance from the car in front and obey speed limits while driving on a highway.

### Rear Cross–traffic Collision–avoidance Assist

Warns the driver against risks of colliding with vehicles approaching from the left or right while pulling out in reverse. Applies the brakes automatically if the risk of colliding continues to increase.

### Reverse Parking Collision–avoidance Assist

Alerts the driver if there is a risk of colliding with an object in the back while pulling out in reverse. Applies the brakes automatically if the risk of colliding continues to increase after sounding the alarm.

### Remote 360–degree view (surround view)

Check the location of your vehicle and look at the surroundings remotely even when you are far away.
