K5

K5 *Stop & Play*

A new world unfolds when the lights come on.

Get ready for the start of a new beginning that will bring joy to mundane, daily routines and capture the attention of ordinary city dwellers who look for amusement but see nothing that catches their eye. Fresh, enjoyable, beautiful, and surprising, it even comes equipped with cutting-edge interactive technology thought to belong only in futuristic sedans. Prepare for a stunning encounter that will bring joy to your everyday life. K5.

Stop

#Eyes stop

One glance was all it took to be captivated by its powerful looks.

I like bold moves and unexpected reversals, but my tastes and standards have always remained the same. That is until I had an overwhelming encounter that surpassed all expectations. A new and original creation perfected through innovation and breakthroughs. No words can adequately express my awe.

The most impressive, sensational and extraordinary car stood right before my eyes.

K5's fresh appeal made an indelible impression in my heart.

Play

Always play

Work. Play. Rest. Mingle. Escape. Discover.

"Joyfully" is a modifier that pairs nicely with these words.
 K5's convenient smart technology and state-of-the-art safety technology will boost the fun and excitement of boring routines.
 Discover the joy of connection and interaction and get used to a never-ending series of touching moments with K5.
 K5, it will never let you stand still, even for a moment.

Play interactive

AI-based, interactive technology

Breaking away from stereotypes that automobiles must be manually operated by the driver, K5 is equipped with advanced technology that interacts actively with the driver and surroundings to provide a futuristic mobility experience today in everyday life.

- 360 degrees remote view (surround view)**
 Check your vehicle status and look at the surroundings of your vehicle remotely through your smartphone using the Kia Connect application.
- 360 degrees remote view (surround view)**
 Check your vehicle status and look at the surroundings of your vehicle remotely through your smartphone using the Kia Connect application.
- Smart Air Purification**
 Monitors indoor air quality in real time and automatically purifies the air.
- Voice recognition vehicle control**
 Windows, seat warmers and ventilation, heated steering wheel, and rear window defroster can be controlled using voice commands.
- Remote Smart Parking Assist (RSPA)**
- Kia Digital Key**
 Door locks can be controlled and the engine can be started with a NFC card or smartphone when you don't have the smart key.
- Dial-type Shift by Wire (SBW)**
- Thematic cluster**
 The cluster's background display changes according to the environment, such as the weather or time of the day.
- Car to Home**
 Operate IoT home devices, such as lights, gas valves, and air conditioning from your vehicle.
- Final destination guide**
 Kia Connect can walk you up to your final destination after parking your car by showing you your location and your final destination.

Specifications may vary according to the trim, engine and options that are selected.

Stop & Play

Feel free to play

New ways to seek freedom

Voice controlled heated steering wheel

Voice controlled windows system

Voice controlled air conditioning system

Voice controlled seat warmers / ventilated seats

Voice recognition vehicle control*

Make intuitive commands, such as "turn on the air conditioner," or give instructions such as "make it cooler" or "make it warmer" as if you were carrying a natural conversation to control the windows, steering wheel heating, seat warmers/ventilation, and rear window defroster using voice commands.
※ Some functions may not be supported depending on the options that are selected.

As easy and convenient as you wish

Preparing one step ahead for where you want to go, what you want to do, and what you need.

Final destination guide Kia Connect can walk you to your final destination after the car is parked when you and the destination entered into the navigation system are distances apart.
※ Service is available only within 200 m to 2 km from the final destination.

360 degrees remote view (surround view) Check your vehicle status and look at the surroundings of your vehicle remotely through your smartphone using the Kia Connect application.

Remote Smart Parking Assist (RSPA) Move your car forward or backward using the smart key for convenient driver and passenger vehicle access in places where it is difficult to get on or off the car, such as narrow parking spaces.

* A virtual image has been used to help viewers' understanding / Specifications may vary according to the trim, engine and options that are selected.

Stop & Play

Fun to play

Every moment exactly the way that you want it to be

New enjoyment and comfort in driving

Convenient, smart technology records and checks every moment of your drive. Indulge in every moment of your ride.

Built-in camera Built-in front and rear video cameras can record while you drive. See the images through the navigation screen and send them out using your smartphone.

Dial-type Shift by Wire (SBW)

A dial-type controller with fine details and a comfortable grip conveys a sense of quality.

Intelligent to play

Smart and wise reactions

Navigation-based Smart Cruise Control (NSCC)

Promotes safety while using SCC in an expressway or urban expressway by automatically controlling speed before entering a curve or a safety zone using navigation map information.

※ Operation may be restricted due to the vehicle's speed or driving conditions.

State-of-the-art technology that assists drivers according to driving conditions

Enjoy the most advanced drives with the help of convenient driving technology.

Highway Driving Assist (HDA)*

Automatically controls vehicle speed to maintain a safe distance from the car in front while driving on an expressway or urban expressway. This convenient system helps relieve the burden of driving long distances or on congested roads.

※ Operation may be restricted due to the vehicle's speed or driving conditions.

* A virtual image has been used to help viewers' understanding / Specifications may vary according to the trim, engine and options that are selected.

Stop & Play

Power to play

Greater choices in driving performance

Next-generation power trains that have an impressive performance

A fine balance between maximum power and maximum torque maintains the excitement of driving at low speeds as well as high speeds.

K5 hybrid

Smart way to play

Performance that demonstrates the value of hybrids

Our dilemma about the cars of the future is directly related to our destiny.

What we do now to ensure that our happiness is passed on to the future should not be limited to increasing small daily habits that help the environment, but include bolder actions such as choosing to drive a hybrid car. K5 hybrid delivers best-in-class fuel economy while maintaining the pleasure of driving to ensure that the happy future that we all dream about naturally becomes a part of our daily lives.

2.0 hybrid _ Snow White Pearl (SWP) / Specifications may vary according to the trim, engine and options that are selected.

K5 hybrid

The Smartstream G2.0 HEV engine and 6-speed automatic transmission deliver best-in-class fuel economy while offering the same trunk space as the gasoline models. A solar roof charges the car battery using sunlight, increasing the driving range and reducing fuel costs.

Combined fuel economy 20.1 based on 16" tires km/ℓ	Max. power 152 gasoline engine / 38.6 electric motor ps / kW	Max. torque 19.2 gasoline engine / 205 electric motor kgf·m / Nm

16" full finish front wheel

17" full finish front wheel

18" full finish front wheel

Specifications may vary according to the trim, engine and options that are selected.

Interior

Saddle brown interior

Thematic cluster

The 12.3" cluster changes automatically according to the environment, such as the weather (sunny, cloudy, raining, snowing) or the time of the day. It is a technology that enhances the pleasure of driving and improves concentration.
(Available to Kia Connect subscribers)

Head-up Display (HUD)

Projects three-dimensional graphics and diverse driving information on the windshield glass to promote safe driving by helping drivers keep their eyes on the road.

Ambient light

Improves the driver's emotional concentration by changing in color according to the driving mode that is selected.
(Door ambient lights use color blending effects / Limited to professionally recommended colors)

Specifications may vary according to the trim, engine and options that are selected.

Convenience

Air purification system (including micro-dust sensor)*

Monitors and displays indoor air quality in real time in 4 levels (good, normal, bad, very bad) on the air conditioning display window. Automatically activates the high-performance combi-filter to purify the air if air quality is bad or very bad.

Outside air intake control*

Linked with the navigation system, it helps to maintain a pleasant air quality in the cabin by automatically closing the windows and switching air conditioning to the recirculation mode before entering a tunnel or an area that is known for being polluted.

Kia Digital Key

Operate the door locks or start the engine with a NFC card or smartphone when you don't have the smart key (Smartphones can be used like a smart key within 10 m of the vehicle using Bluetooth).

* Digital key app is compatible with Android OS 7.0 (Nougat) smartphones or higher.

Kia Pay

Make payments conveniently to affiliated merchants, such as parking lots and gas stations, using Kia's simple payment system on the navigation screen. Charges will be posted to your credit card associated with your Kia Pay account.

* New merchants are being continuously added. A real-time, updated list can be accessed through the Kia Pay app or the navigation system.

Personal profile settings

When several people use a car together, personal settings can be stored and automatically replicated using a digital key or by selecting the user on the navigation screen.

Driver's seat smart position control system

Recommends driver's seat, steering wheel, outside mirror and HUD position settings based on the height, weight and seated-height information entered into the navigation screen.

Car to Home

Check the status and operate IoT home devices from your vehicle. Control light (bedroom, living room, kitchen, etc.), temperature (air conditioner, boiler), and gas valve settings.

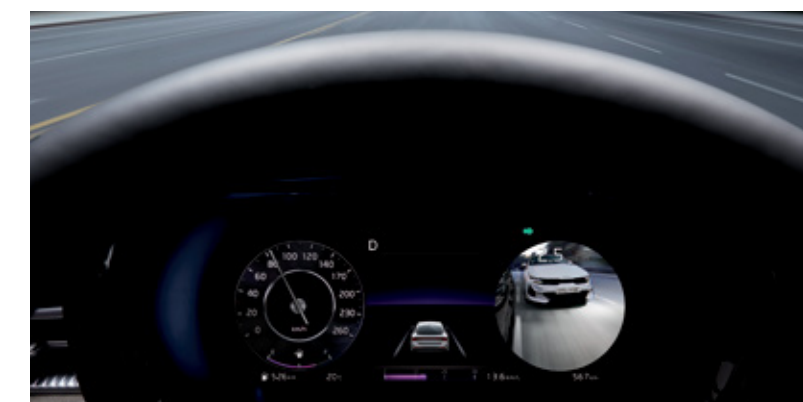

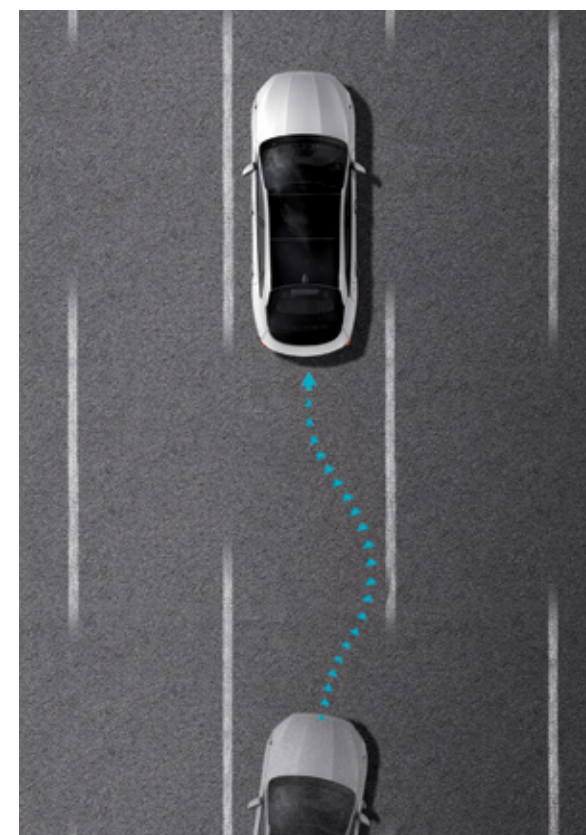

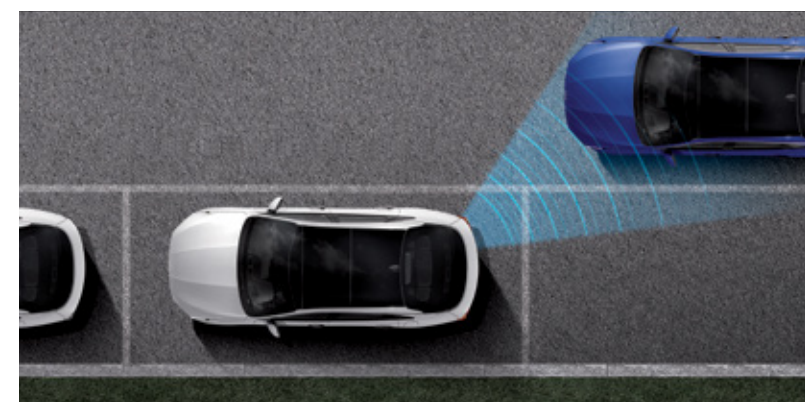

* Works only on devices that are compatible with the Car to Home system.

* A virtual image has been used to help viewers' understanding / Specifications may vary according to the trim, engine and options that are selected.

Safety

DRIVE WISE Hassle Free, Delightful Driving
Peace of mind for a more enjoyable and pleasant drive

Kia's brand name for ADAS technology that proactively analyzes driving conditions and assists drivers to provide the highest level of safety to drivers, passengers, pedestrians, and drivers of other vehicles alike.
※ ADAS : Advanced Driver Assistance System

Forward Collision-avoidance Assist (FCA)*

Helps prevent collisions by alerting the driver and applying the brakes automatically, if required, when danger of colliding with a car, pedestrian, or bicycle rider in front is detected.

※ Operation may be limited due to vehicle speed and driving conditions.

Blind-spot Collision-avoidance Assist (BCA)*

Tracks lanes using the front camera and monitors the back using the rear radar to prevent collisions while changing lanes. Applies the brakes automatically if the system detects a risk of colliding with a vehicle in the back or in adjacent lanes, mitigating accidents and reducing damage.

※ Operation may be limited due to vehicle speed and driving conditions.

Safe Exit Assist (SEA)*

Keeps the rear doors locked and sounds an alarm if a door is opened when a vehicle is approaching from the back in an adjacent lane when the car has come to a full stop.

※ Operation may be limited due to vehicle speed and driving conditions.

Driver Attention Warning (DAW)*

Monitors the driver's level of alertness and emits a warning if necessary.

※ Operation may be limited due to vehicle speed and driving conditions.

Leading vehicle departure alert*

Alerts the driver when the car in front starts to move in a full stop.

※ Operation may be limited due to vehicle speed and driving conditions.

Blind-spot View Monitor (BVM)

Promotes safer and more convenient driving by showing blind spots on the turning side of the vehicle through the cluster when a turn signal is activated to.

Rear Cross-traffic Collision-avoidance Assist (RCCA)*

Warns the driver if a car is approaching from the side while pulling out in reverse and applies the brakes automatically, if necessary, to prevent a collision.

※ Operation may be limited due to vehicle speed and driving conditions.

* A virtual image has been used to help viewers' understanding / Specifications may vary according to the trim, engine and options that are selected.
