

The Power to Surprise

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful and dynamic styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Mohave, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical and stylish but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors Corporation (www.kia.com) – a maker of quality vehicles for the young-at-heart – was founded in 1944 and is Korea's oldest manufacturer of motor vehicles. Over 2.7 million Kia vehicles a year are produced in 10 manufacturing and assembly operations in five countries which are then sold and serviced through a network of distributors and dealers covering around 150 countries. Kia today has around 48,000 employees worldwide and annual revenues of over US\$43 billion. It is the major sponsor of the Australian Open and an official automotive partner of FIFA – the governing body of the FIFA World Cup™. Kia Motors Corporation's brand slogan – "The Power to Surprise" – represents the company's global commitment to surprise the world by providing exciting and inspiring experiences that go beyond expectations.

Unleash your confidence

SORENTO

— An adventurer that's equally
at home in the modern cityscape

The Sorento has a solid legacy of hard-working, all-weather practicality forged in the great outdoors. Now with even more refined styling, its resourcefulness proves just as appealing on the most sophisticated city streets.

Life turns a corner and confidence arrives on cue

With a more commanding presence and advanced technologies for drivers and passengers alike, the new Kia Sorento stands out among today's SUVs. At the moment in life when driving enjoyment meets a need for space and a taste for sophistication, the Sorento arrives to save the day.

An SUV designed for all the lives we lead

The sleek and agile Sorento brings luxury, technology and practicality to the street with ideally balanced proportions. Advanced handling dynamics, forward-thinking safety features, and truly empowering connectivity come together in a sophisticated package that helps you navigate the demands of modern life in style.

A new face with a familiar depth of character

With its newly elevated headlamps and bonnet, the Sorento cuts a bold and substantial figure on arrival. At the rear, bright LED stop lamps integrated into the taillamps communicate instantly with following traffic.

Surround yourself with intelligent contours

The wraparound form of the Sorento cockpit engages you from the start while sculpted door garnishes flow organically into the front safety mouldings. Protuding functional elements such as the side air vent controls and the lower controls of the centre fascia invite engagement.

Inspired, relaxed, and firmly in control

With its fine craftsmanship, simple, appealing instrumentation and powerful, targeted ventilation, the roomy Sorento interior is a refuge of sophistication and calm when life gets busy.

4.3" TFT-LCD touch-screen audio

The 4.3" touch-screen audio system adds to the standard system's capabilities with a larger, colour touch screen and an integrated backup camera display.

3.8" mono-TFT-LCD audio

The standard 3.8" LCD audio system offers radio and CD player control, Bluetooth Handsfree, MP3 storage/playback functions and more.

7" TFT-LCD supervision cluster

A high-visibility display in the centre gauge reports outside temperature, audio information, distance to empty, fuel consumption.

Simpler floor console design

The floor console design is less cluttered and more efficient thanks to the adoption of an electronic parking brake and the elimination of the manual handbrake lever.

Satin-chrome finish

Luxurious, satin-chrome finish graces the inner door handles, air vent surrounds and other interior design features. The raised vents echo the finish of the dials and their knurled control knobs let you smoothly adjust direction and airflow.

Rear air ventilation and power supply

Rear passengers can adjust airflow with vents and controls mounted at the back of the centre console. USB and 12V outlets let them charge a variety of devices.

Luxurious trappings keep you feeling right at home

The Sorento interior offers a high standard of comfort and luxury featuring finely crafted seats. A dual-pane Panorama sunroof, an EX option, adds a new dimension of sunny charm. On 7-passenger models, the 2nd row seat auto-folds and slides 270 mm to let rearmost occupants in and out, while the 3rd row seat back splits and folds 50:50.

Ease of entry and exit On 7-passenger models, the 2nd row seat auto-folds and slides 270 mm to let rearmost occupants in and out.

Heated and ventilated seats For all-weather comfort, heated 1st and 2nd row seat cushions and seat backs allow adjustable heating for driver and passengers when it's cold. On warm days, the driver and front passenger can enjoy soothing airflow through the seat cushions and seat backs. Optional on EX models.

Driver's seat thigh extension To offer support and comfort for long-legged drivers, the cushion of the driver's seat can be extended up and forward at the push of a button on the seat base. Optional on EX models.

One-button adjustable headrest The 1st row seat headrests offer up, down and sliding adjustment with the simple push of a button. Optional on EX models.

3rd row partially folded

2nd row partially folded (ski-through mode)

3rd row folded fully flat

2nd row partially folded

3rd row folded fully flat & 2nd row partially folded

2nd row folded fully flat

■ 7-seater

5 or 7 seats for maximum flexibility Partial and full folding of rear seat rows give Sorento numerous seating and cargo combinations for a perfect balance of passenger comfort and practicality, including convenient loading of long or odd-shaped cargo and leisure equipment.

■ 5-seater

Making the most of the space inside

A modern sport utility vehicle should accommodate a wide range of scenarios that come up through the years. The Sorento transforms quickly from a 7-seat commuter, to a miniature removal truck, to an adventure facilitator for travelers and their equipment. No matter the configuration, comfort and sophistication rule the day.

A cargo hauler at heart

The Sorento is designed to offer true practicality when you need to load, stow and carry cargo. The interior space quickly accommodates even large or bulky items. For everything that won't fit inside, a roof rack comes as standard.

Smart power tailgate

The rear tailgate opens automatically when the Smart Key is detected nearby for 3 seconds or more, and closes with a simple push of a button. Optional on EX models.

Self-leveling suspension When a heavy load is placed in the cargo area, the self-leveling suspension raises the ride level to maintain appropriate ride height, stability and clearance.

2nd row seatback lever (7-seater)

Cargo underfloor storage compartment (5-seater)

Cargo screen storage compartment

2nd row seatback lever Each side of the cargo area has a remote folding lever for the 2nd row seatbacks. On 7-seater models only.

Cargo underfloor storage compartment Store emergency items and valuables in the spill-proof tray under the cargo space floor.

Cargo screen storage compartment Stow larger valuables out of view in a separate, partitioned-off space under the optional retractable screen.

Tailgate memory function Opening angles for the tailgate can be stored in memory by pressing and holding a button under the tailgate for 3 seconds. Optional on EX models.

Tap into superhuman attentiveness

Tapping into the power of the latest sensing technology and intelligent processing, the Sorento helps you stay aware of your position and the movement of the vehicles around you, enhancing your comfort and peace of mind.

■ Rear Cross Traffic Alert (RCTA)

When backing out of a parking spot or driveway, the system warns the driver if it detects any cross traffic in the lane the vehicle is entering.

■ Adaptive Front Lighting System (AFLS)

To improve nighttime driving visibility, this system aims and controls the distribution of the low beams as the vehicle goes through turns in proportion to the turning angle. Optional on EX models.

■ Auto Cruise Control (ACC)

For comfort and improved fuel economy, the cruise control system lets you set and maintain a speed above 40 km/h. If you accelerate, it will return to your set speed once you take your foot from the pedal. To turn off cruise control, turn the steering-wheel-mounted switch off, or simply tap the brake pedal.

Blind Spot Detection (BSD)

The system uses radar sensors to monitor approaching vehicles from the rear in the lanes flanking the driver. If a vehicle is detected, a visual alert appears on the sideview mirrors.

The power you desire and the efficiency you respect

The petrol and diesel engines available on the Sorento offer enjoyable mid- and low-range torque and smooth and quiet operation. Their enviable fuel economy is aided by ingeniously precise transmissions that balance power and efficiency, whether you're in town or out on the open road.

3.3 Gasoline MPI
Max. power
270 ps @ 6,400 rpm

2.4 Gasoline MPI
Max. power
172 ps @ 6,000 rpm

2.2 Diesel CRDi
Max. power
200 ps @ 3,800 rpm
(Euro -4, 5, 6)

6-speed automatic transmission An electronically controlled 6-speed automatic transmission provides smooth, seamless shifting and improved fuel efficiency.

6-speed manual transmission The Sorento's 6-speed manual gearbox offers high torque on demand for acceleration and sporty performance, along with smooth, fuel-efficient gear changes.

Drive mode select system Choose Normal, Eco, or Sport mode to suit your preferences. Standard on automatic transmission models.

Flex Steer system Choose between 3 steering modes: Comfort, Normal or Sport. Standard on manual transmission models.

Cd **0.33** Coefficient of drag

Witness graceful economy in motion

They may be eye-catching, but the sleek contours of the Sorento aren't just for looks. In fact, they are doing their part to take you further on less fuel. With its aerodynamic 0.33 coefficient of drag, the Sorento leads the class in low air resistance - making the exterior all the more attractive from the driver's seat.

Energy Regeneration system Whenever you apply the brakes, or take your foot off the accelerator and coast, the normally wasted energy is recovered. That is, recovered energy is saved to the battery when slowing down and braking. This saved energy can be used for general driving modes such as idle, acceleration and cruising. Because it lightens the burden on the engine while in general driving modes, the Energy Regeneration system can reduce fuel consumption and CO₂ emissions.

Technology makes it all seem effortless

Every day the road can present new challenges. The Sorento is engineered to use its own reflexes to keep you in control when tricky surfaces, inclines, twisting roads, and unexpected moves by other drivers put you to the test.

Hill-start Assist Control (HAC)

HAC prevents the vehicle from rolling backward when at a standstill on an incline by gently applying the brakes for up to two seconds while you move your foot from the brake pedal to the accelerator.

Vehicle Stability Management (VSM)

The system enhances the directional stability of the vehicle by automatically controlling MDPS and brakes on each wheel. In case of braking on a non-homogeneous surface (e.g. right wheel on ice and left wheel on the asphalt), it helps to stabilize the vehicle and maintain the vehicle path.

Rack-type Motor-Driven Power Steering (R-MDPS) A firm, solid feel and unprecedented steering response are simultaneously achieved with optional R-MDPS.

Rear sub-frame Even 2WD models now feature the sturdy rear sub-frame that AWD models are famous for, further improving driving stability.

Upright rear shock-absorber A more vertically oriented rear shock absorber system helps to control wheel travel on uneven ground and better isolates occupants from bumps.

We've given the unthinkable quite a bit of thought

Feel protected inside the Sorento cabin where you are surrounded by a safety cage design fortified with ultra-high-tension steel and a 6-airbag SRS system. Thoroughly tested in countless crash simulations and actual collision tests, the Sorento puts occupant safety above all else.

53 % AHSS* used

***Advanced High Strength Steel (AHSS)** The Sorento uses more than 53% Advanced High Strength Steel. This exceptional steel reinforces the front, rear and sides, as well as high stress points throughout the body.

Six airbags The Sorento offers driver, front passenger, two front-side, and two side-curtain airbags to help protect occupants and potentially reduce injuries, in the event of a collision.

Experience precise control of every wheel

An innovative, continuously active AWD coupling system helps the AWD-equipped Sorento maintain the utmost traction on rough, loose or slippery surfaces, and helps improve lateral stability when cornering.

Dynamax AWD
True AWD. Continuously thinking forward.

Dynamax™ AWD Coupling The intelligent Dynamax All-Wheel-Drive (AWD) system, developed in conjunction with Magna Powertrain, continuously monitors driving conditions and anticipates AWD system requirements, sending torque to the wheels that have traction. The system also adds stability in corners, helps eliminate unintended over- and understeer by reducing unwanted traction forces at the front and rear axle, and helps reduce fuel consumption and emissions.

Equipped to get you
right where you want to be

The rugged new 2015 Kia Sorento takes you to exciting new places, and offers you the equipment needed to make the journey with style and confidence.

The little things that make it all yours

While the Sorento comes well equipped with standard features, a wide selection of optional amenities give you many ways to personalise your own Sorento to suit your needs and preferences.

Panorama sunroof The vast dual-pane Panorama sunroof lets you and your passengers enjoy fresh outdoor breezes as it creates an even more spacious interior ambience. A one-piece motor-driven roller blind, and the absence of a centre head lining, provide an open feeling unmatched by competitors' sunroofs. Optional on EX models.

Steering wheel audio remote control Intuitively placed steering wheel-mounted controls let you adjust volume and change stations without taking your hands from the wheel.

Auxiliary, USB and iPod® connections Play audio from iPods, flash drives and other compatible multimedia devices through the integrated 3.5 mm (analogue) and USB connectors.

Bluetooth Handsfree Enables wireless connectivity between your Bluetooth-compatible devices and the vehicle sound system via the built-in microphone.

Electronic Parking Brake (EPB) Engage the parking brake simply by operating a button and be certain of whether it's properly engaged or not. Optional on EX models.

Exterior lamps outage indicator When the circuit for an exterior lamp is broken, the cluster displays the position of the broken lamp for added convenience.

Integrated Memory System (IMS) Recall the stored seat, steering wheel and side mirror positions for two drivers. Optional on EX models.

Dual separate climate control On EX models, the dual climate control system gives the driver and front passenger separate controls for temperature and fan speed.

Heated steering wheel A heated steering wheel makes it easier to grip the wheel firmly on cold days. Optional on EX models.

Sunshade blind A retractable rear-door window sunshade helps rear passengers and stowed cargo stay cool on sunny days.

Auto-up and -down windows An auto-down driver's window is offered as standard. Choose optional auto-up and -down driver and front passenger windows for added safety and convenience.

HMSL integrated rear spoiler An attractively contoured rear spoiler helps to manage airflow over the rear of the vehicle and incorporates a High-Mounted Stop Lamp (HMSL).

LED tail lamps and stop lamps LED tail lamps and stop lamps, an EX option, are integrated into the tail lamp clusters. LEDs illuminate more quickly, last longer, and are more energy efficient than conventional bulbs.

Cup holder There are two large-sized cupholders at center of 1st and 2nd row seats. It allows for the safe and spill-free storage of bottles and cups to enhance convenience.

Stainless steel pedals Sturdy, lightweight stainless steel pedals add a performance-inspiring accent. Optional on EX models.

LED illuminated door step Bright, low-energy LED lighting illuminates the lower door sill to help you get in and out of the Sorento gracefully at night or in dark car parks.

Interior colour and trim selection

Black one-tone interior

■ EX optional grade Saturn Black Leather

Vehicles in harmony with nature

eco dynamics

Whether you love getting out into the great outdoors or simply enjoy living in a more sustainable balance with the ecosystem, you have found a soul mate in Kia Motors.

Environmental preservation and social responsibility are top priorities at Kia, and we back up our commitment with tangible action. Our EcoDynamics sub-brand, established in 2009, designates the most eco-friendly cars within each Kia model range that showcase our new fuel-stretching and emission-cutting technologies such as hybrid, electric and hydrogen fuel cell powertrains.

We are also building a clean global production system, raising the resource

recovery rate, and designing vehicles with the disposal phase in mind. Meanwhile, we are adopting more and more environmentally friendly materials in our cars, selected for their composition, biodegradability and bio-inspired technology. For example, to reduce our carbon footprint, we are replacing oil-based materials with plant-based materials wherever possible.

As you can see, we at Kia Motors are committed to finding fundamental solutions to cut energy consumption and combat climate change. If you feel the same way about preserving the environment and ensuring a brighter future for the younger generation, then we have just the vehicle for you.
