

All-new

SELTOS

NO MATTER
WHAT COMES NEXT

The Power to Surprise

BOLD DESIGN THAT CATCHES EVERY EYE

THE STRONG, SILENT TYPE THAT CAN ALSO ROAR

Athletic contours make Seltos look like it's ready to pounce. Refined details hint at a calm intelligence. The styling conveys strength and composure that come to life on the road.

ELEGANT & COMFORTABLE FUNCTIONALITY

FACE YOUR
NEXT ADVENTURE WITH
RELAXED REFINEMENT

The spacious and welcoming interior combines a simple, intelligent driver interface with firm yet comfortable seating and tasteful appointments for everyone inside. A well-balanced suspension delivers a smooth ride. The decor is sophisticated, but it can also be livened up with a variety of bold color treatments.

THE WORLD LOOKS BETTER FROM THE INSIDE

To minimize driver eye movement, displays are positioned at only slight angles from one another, and from the road ahead. But it's not just about the driver. This interior is designed to entertain everyone inside in true comfort.

1_ Head-up display (HUD)**

The head-up display projects an image equivalent to an 8" screen onto the windshield, letting you monitor speed without looking away from the road.

2_ 8" touchscreen display

The wide, customizable 8" TFT LCD high-resolution display presents audio data, rear view monitor, and parking guidance, all at a glance.

3_ Smartphone wireless charger**

Charge a compatible mobile phone wirelessly on the pad in front of the gear selector.

4_ 7-inch TFT LCD supervision cluster**

The supervision cluster helps you stay focused and informed, with data like remaining distance to empty and fuel consumption, and outside temperature.

5_ 433-liter luggage capacity

The floorboard of the roomy cargo space can be set higher to conceal items, or lower to offer more cargo volume. A low-cut opening makes loading easy. The rear seat backs split 60/40 and fold forward, expanding the cargo area into the cabin.

6_ 60:40 split-folding rear seats

The rear seatbacks split 60:40 and fold flat to accommodate a variety of passenger and cargo combinations. When the seatbacks are folded flat, large, bulky items can be transported without obstructing the view out the rear window.

6 theme choices

- Party Time - Traveling - Midnight City - Romance - Cafe - Hey! Yo!

7_ Sound mood lighting system

Door and dashboard surfaces glow with soothing colors that change at regular intervals, or pulsate in sync with your music.

STYLISH, SAFE, AND SOPHISTICATED TECHNOLOGY

Sometimes the smartest solution is the simplest one. The Seltos offers a range of technologies to help make driving safer, and with peace of mind. They come into play when you're maneuvering into a tight parking space, or backing out into the street. The technology in the Seltos is dedicated to keeping you focused and well informed, while it can even step in to help keep you out of danger.

1_Parking Distance Warning (PDW)**

To help you park safely and confidently, PDW employs ultrasonic sensors mounted on the bumpers and uses audible alerts, and visual warnings on the supervisor cluster, to warn you of any vehicles or obstacles ahead of you or behind you that may be getting too close.

2_Stronger through added AHSS

From head to toe, the Seltos makes extensive use of advanced high strength steel (AHSS) throughout its well-reinforced chassis design. The result is exemplary control, dynamic performance, and enhanced occupant protection.

3_6 airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, the Seltos offers driver and front passenger airbags, two front side airbags, and available side-curtain airbags running the length of the interior on each side.

4_Drive Traction Selector

Drive Traction adjusts engine torque and braking to help you start off with confidence on a low-traction surface. Use button to select multiple modes

5_Cruise control

Cruise control lets you choose a preferred speed to give your foot a rest on the open road. Lightly tapping the brakes, or pressing the cancel button, will restore Seltos to manual acceleration mode.

6_Rear View Monitor (RVM)

Rear View Monitor with Parking Guidance gives you a live view of what's behind you. Lines superimposed on the image help you know how much space you have.
