

The face of next generation SUV possibilities.

The EV9 accommodates up to six people and their belongings in spacious SUV comfort. Despite its high and wide shoulders, EV aerodynamics are hard at work to reduce wind resistance. While the EV9 may be more upright than most EVs, but when it comes to physics, it's generations ahead of most SUVs.

Comfort and style, inspired by nature and augmented by technology.

Colors and textures throughout the EV9 interior are inspired by nature, incorporating Kia's 10 must-have sustainable items wherever practical. Technology is integrated sensibly and tastefully, with subtle touches like mood lighting and reclining relaxation seats at the first and second rows for a calming ambience.

Quality time meets quality space.

Beginning with a flat floor and a broad-shouldered frame, the Kia EV9 designers had the freedom to reimagine how seats, people and cargo all come together. The overall feeling in the three-row interior is spacious and serene, provide the latest technology for both front and rear occupants.

Second Row Swivel Seats

The center row seats can be rotated 180° for more intimate interaction with third row seat occupants.

Relaxation Seats

Comfortable relaxation seats at the first and second row feature power leg rests to help relieve occupant fatigue.

Countless ways to unwind.

An expansive dual sunroof allows light and fresh air into the roomy interior. A variety of seating options help you customise the space for up to six passengers. The configuration offers a choice between two distinctive features: swiveling second row seats that can turn to directly face third row occupants, or the alternative option of first and second row relaxation seats that recline at the push of a button.

6 Seats Swivel Seats

Relaxation Seats

More people come with more things.

The versatile cabin design lets you decide the right balance between occupants and belongings. Even the most luxurious EV9 seats are easily foldable to make way for cargo, while the flat floor contributes to an expansive overall interior space.

Smart Power Tailgate

Simply stand behind the vehicle for three seconds with the smart key in your possession, and the tailgate will open automatically. You can even set the opening height to fit your preferences.

V2L (Vehicle-to-Load) In

Power your devices easily with a 3 pin plug conveniently located at the rear cargo area.

Center Console

Combines an armrest, a mobile phone charging pad, and storage areas.

Front Trunk

A convenient storage area under the front hood provides up to 52ℓ of space.

Ample Cargo Space

The tailgate opens to reveal generous space behind the rearmost seats for luggage, sports equipment and groceries.

Wireless Charging Pad

The rubber-lined, wireless charging pad in the center console can quickly charge compatible smartphones.

Head-up Display

Vital driving information is projected onto the lower part of the windshield, so you can focus more safely on the road.

Stay connected with the road and world around you.

The panoramic instrument display organizes driver information into a wide, clear horizontal band. The intuitively laid out touchscreen allows you to quickly navigate between data, settings, or entertainment choices. Climate controls double as entertainment controls, and the vehicle's forward and reverse controls are at your fingertips just behind the steering wheel.

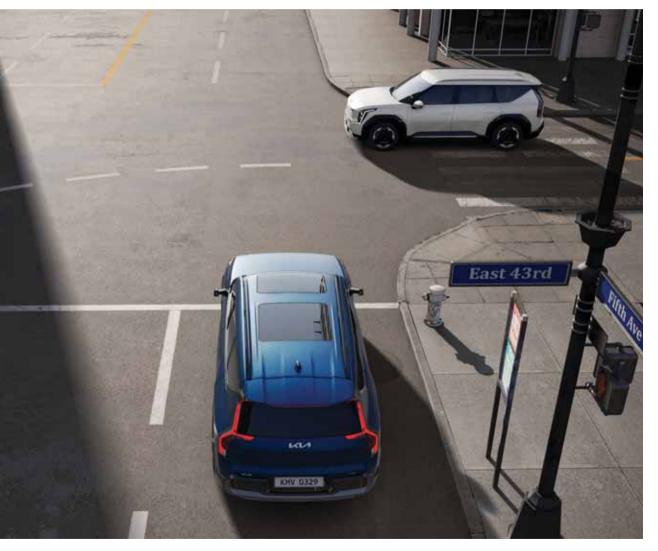

Hidden-type Touch ButtonsEnjoy quick and convenient access

Enjoy quick and convenient access to entertainment and other functions with the press of a finger.

Watchful eyes for all-around protection.

Always observing, sensing, and waiting to step in to help you avoid trouble. Kia ensures the ultimate in occupant and pedestrian safety. It applies more than 20 of the latest Advanced Driver Assistance System (ADAS) technologies to help keep you alert, safe and in control.

Forward Collision-Avoidance Assist 2 (FCA 2) monitors your surroundings and warns you if it detects a risk of collision with a vehicle, pedestrian or cyclist ahead. If the risk persists, FCA 2 automatically assists with emergency braking. FCA also assists with emergency braking if it senses a risk of collision with oncoming vehicles while turning left at an intersection, or with vehicles approaching from left or right. When changing lanes, automatic avoidance steering assistance is activated if there is a risk of collision with an oncoming vehicle in the next lane, a cyclist or pedestrian in the intended path, or an approaching rear-side vehicle.

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with vehicles in your blindspot while changing lanes. BCA also automatically assists with emergency braking when exiting a parallel-parking spot forward, mitigating the risk of collision with a vehicle approaching from behind.

Blind-Spot View Monitor (BVM) displays the rear-side image of the corresponding direction when the turn signal switch is engaged.

Lane Following Assist 2 (LFA 2) helps center the vehicle in the lane. Steering control has been improved and a Hands-On Detection (HOD) sensor can determine whether the driver is holding the steering wheel for optimal system performance.

Remote Smart Parking Assist 2 (RSPA 2) lets you park in or exit a parking spot while you stand outside the vehicle. Using sensor technology, it searches for parking spaces and automatically assists with steering, accelerating, decelerating, and shifting. It will also automatically brake if it senses an obstacle. The improved system now features parking line recognition and enhanced remote operation, while also allowing diagonal parking.

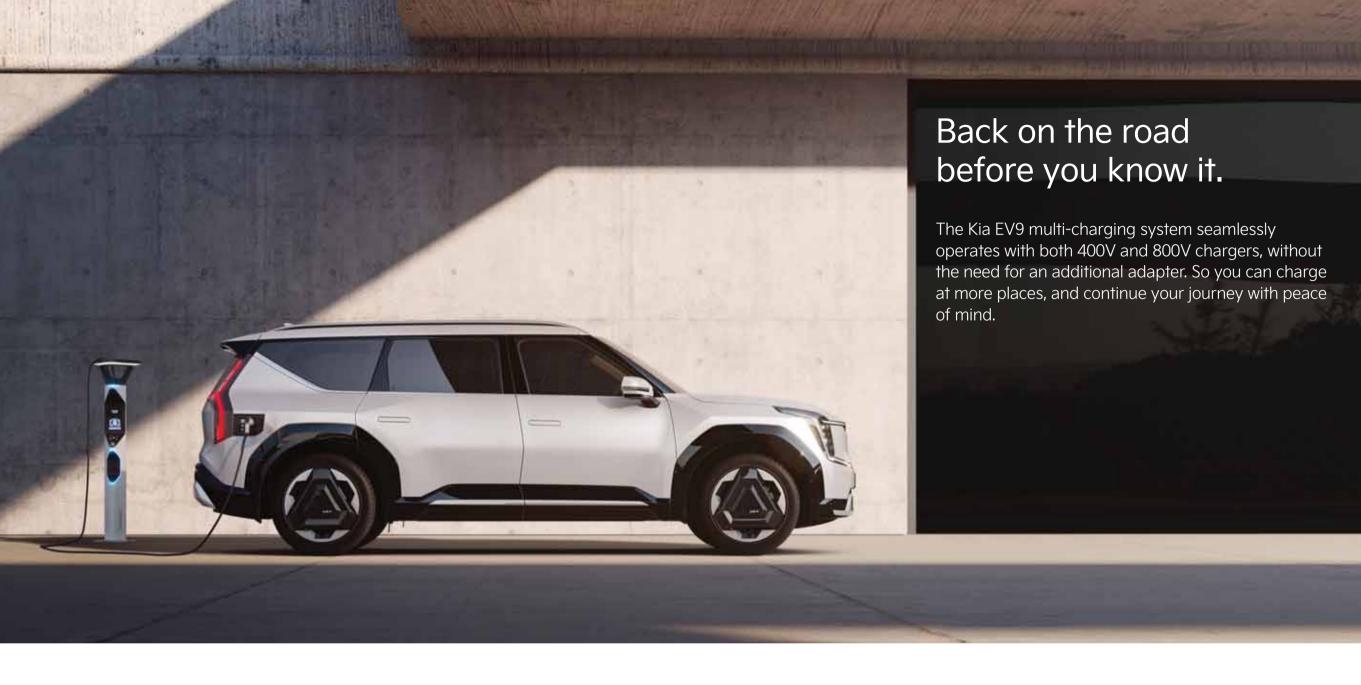

Forward/Side/Reverse Parking Collision-Avoidance Assist (PCA) helps avoid a collision with pedestrians and objects during parking or exiting. If the risk of a collision persists after the initial warning, PCA automatically engages with emergency braking.

Being too careful is a good thing.

Driver assistance isn't just about what happens out on the road and in traffic. ADAS features are continuously looking out for you, helping you navigate in and out of tight spaces with grace and confidence.

Surround View Monitor (SVM) displays a variety of views of the situation around the vehicle for safe parking.

Electric-Global Modular Platform (E-GMP)
The EV9 is the first mid-size SUV based on Kia's innovative E-GMP platform. The flat floor offers uncommon comfort and utility.

Normal & Multi Charging Compatibility (400V/800V) The EV9 is compatible with normal, fast and ultra-fast charging, including at 400V and 800V charging stations, so you can take advantage of chargers at more places, and recharge at substantial speeds.

Power flows both ways in the EV9. With Vehicle-to-Load (V2L), the Integrated Charging Control Unit (ICCU) can power electric devices wherever you go. Additionally, the EV9 is configured for to send power back to the grid when systems go online.

Mastering the power equation.

Push a button to start. Recapture power as you brake.

Maintain control of your range. Plug in devices away from home.

The EV9 gives you reassuring control over the EV experience,
offering more comfort for people on the go.

Column-type Shift-By-Wire (SBW)
Switch between Drive, Neutral,
Reverse and Park with SBW controls
conveniently mounted on the steering
column next to the Start-Stop Button.

Select Terrain mode, and AI technology will interpret vehicle signals to react appropriately to surfaces like snow, mud or sand for safer driving in low-grip conditions.

Cycle & Carriage Aftersales Service keeps your car in its prime.

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and exceptional service experience by well-trained professionals, using state-of-the-art technologies, diagnostic tools and genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 2 years or 40,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty.

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.
