

The Power to Surprise

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful and dynamic styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Telluride, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical and stylish but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors (www.kia.com) is a maker of world-class quality vehicles for the young-at-heart. Founded in 1944, Kia today sells around 3 million vehicles a year in over 190 countries, with 52,000 employees worldwide, annual revenues of over KRW 58 trillion (about US\$50 billion) and manufacturing facilities in six countries. Kia is spearheading the transition to electric vehicles and pursuing mobility services to help tackle urban challenges around the world. The company's brand slogan – "The Power to Surprise" – represents Kia's global commitment to surprise the world with exciting, inspiring experiences that go beyond expectations.

The Power to Surprise

Exceptional Journeys

Printed on Jun 2021

Grasp every moment

Created for drivers who grasp every moment, push every boundary and relish every adventure, the Kia Stonic brings fresh excitement and a free spirit to the crossover experience. With its sleek muscular body, sporty compact styling, exceptional handling and outstanding performance – the new Kia Stonic is for those who always demand more from life.

Escape the everyday

From the first glance, the new Kia Stonic sets its own rules, with looks that challenge convention. Its dynamic sporty appearance at the front is thanks to the 3-dimensional shape of the grille, vertical fog lamp housings and integrated full LED headlamps with powerful LED Daytime Running Lights. Add to that a choice of 20 two-tone colour combinations and 9 one-tone body colours, and you have a style that simply says, 'my life... my way'.

Challenge convention

From behind, the agile Kia Stonic makes a striking and lasting impression. The dramatically raked, spoiler-capped backlight window and bold wheel arches give it a muscular view, whilst three-dimensional design of the LED rear combination lamps make it truly striking. What's more, its sleek, sculpted tailgate and airflow-regulating silver skid plate give it that strong but silent urban feel which is guaranteed to turn heads.

Be true to your own identity

Living in the moment means no boundaries, and that's exactly what you can expect inside the new Kia Stonic. Sculpted contours immediately please the eye and the senses, making driving fresh and fun. The leather steering wheel adds a premium feel to the cabin, whilst the other controls are designed and positioned to place you and your demands in perfect unison.

Seize every second

When you're in control, information is essential, and the new Kia Stonic puts it right where you need it, while banishing any distractions. Bluetooth technology offers hands-free access to your phone using voice recognition, whilst the state-of-the-art information system with its floating colour touch screen keeps you fully informed and entertained.

4.2-inch supervision cluster

Between the speedometer and tachometer, the screen displays auto and audio information.

USB front charger

A USB outlet lets you charge mobile phones and other compatible devices.

Rear USB charging port

A USB jack at the rear of the centre console lets rear-seat occupants charge their devices too.

8" touchscreen infotainment system

The system comes with a high-definition 8" TFT-LCD screen that allows wireless Apple CarPlay and Android Auto connectivity.

Open to any possibility

When routine is the last word on your mind, the Kia Stonic is designed to put your plans and dreams in motion. With split-folding seats, enjoy flexible capacity and a spacious interior that can expand from 352 litres to a huge 1,155 litres, it's easier than ever to set out and explore or simply tackle whatever the day brings.

Folding rear seats:

Rear seats fold nearly flat, so you can fit long or bulky items in the extended cargo space.

60:40 split-folding rear seats:

The rear seat backs split 60:40 and fold flat separately, offering you useful choices for managing cargo and passenger space.

Dynamic in every way

When you're just as happy zipping around the city streets as you are exploring what's over the next horizon, the Kia Stonic's extremely reliable petrol engine offers dynamic performance with lower emissions, making every drive you make a joy and a pleasure.

Automatic transmission

Enjoy smooth acceleration, agile gear shifts and fuel economy with the 7-speed DCT Dual Clutch Transmission.

Forge new Boundaries

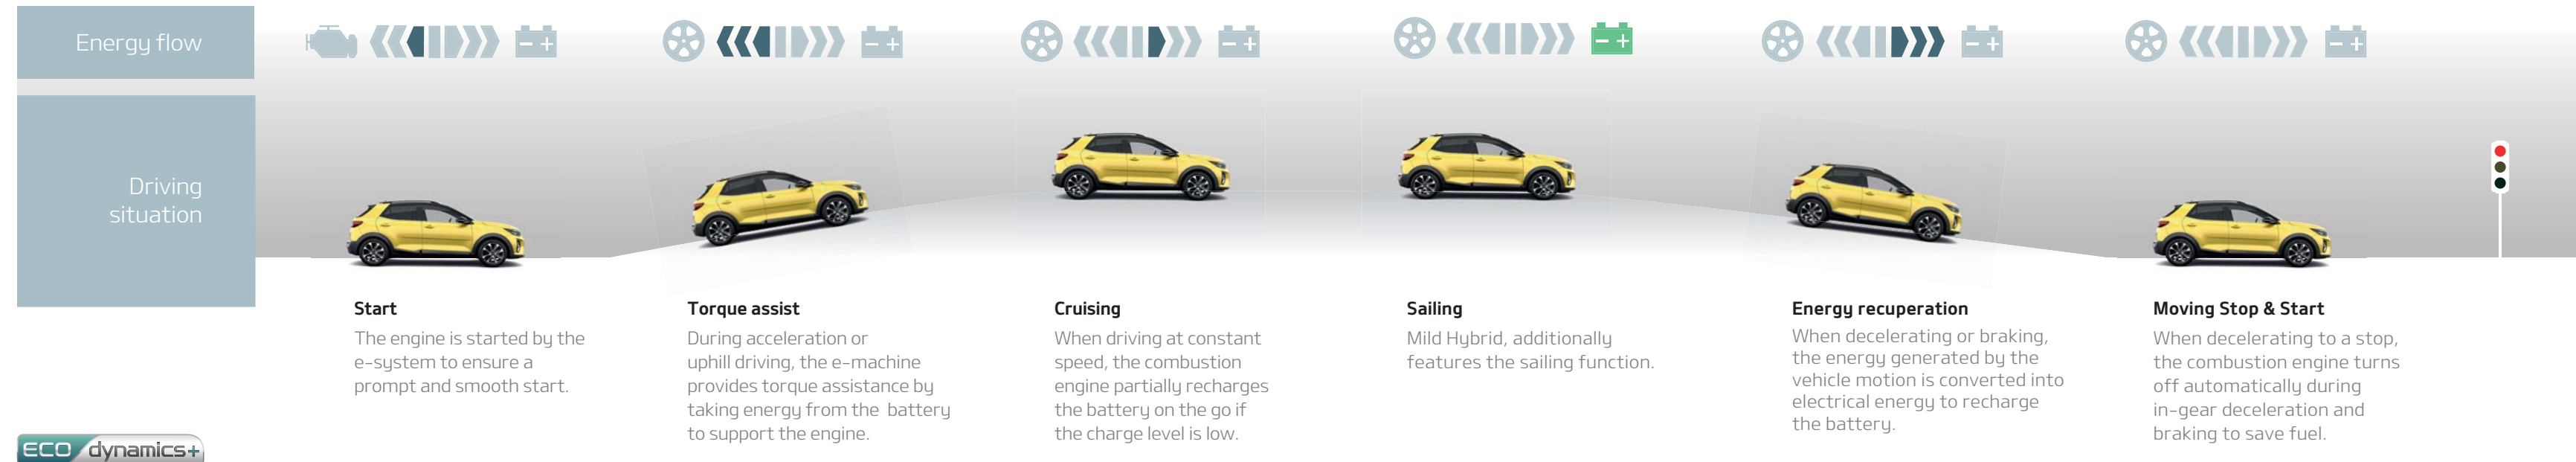

The new Stonic features a Mild Hybrid EcoDynamics+ Powertrain System, offering a low-emission everyday driving. By cleverly pairing the latest 1.0 T-GDi Smartstream engine with a 48-volt lithium-ion battery, it can reduce fuel consumption and vehicle emission levels. What's more, the integrated e-system recovers kinetic energy during deceleration phases to provide torque assistance when accelerating.

Simplified visual representation of the sailing operation.

Sailing Mode

When the driver lifts their foot from the throttle and lets the car sail without accelerating or braking, depending on the charge level of the 48-volt battery the engine will seamlessly and smoothly switch off, resulting in a more efficient ride. As soon as the throttle or brakes are pressed, the engine will immediately take over. The sailing function and the distance covered with the engine off depend on driving conditions and vehicle speed.

| Expand your horizons

Discovering new places and experiences is a lot easier when you know you're supported by the latest Kia Stonic technology. Not only will it inspire and help you discover what you're looking for, but will also add an exciting dynamic to every element of your journey.

Protect what you love

Wherever you are, whatever you're doing, you can be sure that the Kia Stonic is protecting you and the people around you. That's because it's engineered to help drivers stay out of trouble and to manage collision forces in ways that minimise damage.

Cornering Brake Control (CBC)

Discovering new places and experiences is a lot easier when you know you're supported by the latest Kia Stonic technology. Not only will it inspire and help you discover what you're looking for, but will also add an exciting dynamic to every element of your journey.

Torque Vectoring System (TVBB)

An additional function of the integrated electronic stability control system, our new TVBB technology means the Kia Stonic maintains a higher degree of handling stability and security when cornering, while helping to reduce understeer during harder cornering.

Hill-start Assist Control (HAC)

When you're on a steep upward incline, pulling away from a standing start can be a concern, but don't worry, HAC is designed to stop you from rolling backwards.

Vehicle Stability Management (VSM)

Working in concert with the motor driven power steering, Kia's VSM helps ensure that the Stonic remains stable when simultaneously braking and cornering.

AHSS STEEL FOR GREATER STRENGTH AND ADDED CABIN PROTECTION

The Stonic uses Advanced High Strength Steel (AHSS) to deliver greater average tensile strength that makes the body phenomenally rigid, enhancing cabin protection as well as dynamic performance.

98 METRES OF STRUCTURAL ADHESIVE FOR REDUCED NOISE

Greater use of structural adhesive means the new Kia Stonic is both rigid and light, and offers outstanding noise and vibration management.

8 HOT-STAMPING ZONES FOR EXTRA STRENGTH

The Stonic features hot-stamping of components in eight core stress areas, contributing to exceptional rigidity, meaning the strengthened body structure helps provide improved crash protection.

6 AIRBAGS

Protection includes front airbags for the driver and front-seat passenger, two air-bags at the sides and two curtain airbags running the length of the cabin.

Anticipate the unexpected

With Stonic's DRIVE WiSE technology, being at the wheel is simply more satisfying. Whether you're parking, manoeuvring city streets, in the fast lane or on the open road, DRIVE WiSE features watch out for trouble, alert you and even step in to help you stay in the clear.

Rear Cross-Traffic Collision Warning (RCCW) (SX only)

When you back out of a parking spot or driveway, the radar-based RCCW warns you if it detects cross traffic in the lane the vehicle is entering.

**Rear Parking Distance Warning (EX only)
Front & Rear Parking Distance Warning (SX only)**

Ideal for confident parking, PDW uses ultrasonic sensors mounted on the bumpers to warn of any obstacles in front or behind when manoeuvring into a parking space. The audible beeps can be switched on or off.

Blind-Spot Collision Warning (BCW) (SX only)

When you want to change lane, the BCW system detects any vehicle(s) in your blind spot and warns you with a warning symbol in your side mirror and on your centre display together with an audible alert.

Make choices that count

Now that you've seen the amazing things the Stonic can do, it's time to make some exciting decisions. Pick your colour and tell the world, 'This Stonic is all me.'

Keep them guessing

Because you don't do everyday, the Stonic doesn't either. So you'll find refreshingly bold and lively colours that bring out the best in its contours and express the free spirit in you. You can even customise your Stonic with a two-tone body colour by choosing one of the special roof-colour options.

Equip yourself for every event

Short hops? Commutes? Weekend getaways? Adventures into the unknown? Whatever your needs, only you can decide what your vehicle is to you and what belongs in it. That's why the Stonic offers a wealth of equipment to help make it feel like it was custom-made for you from the start.

Full LED headlamp design

Eyes front... the Kia Stonic comes with a brand-new and truly stylish 4-lamp headlamp design that integrates beautifully with the sleek sweep of the front bonnet. What's more, by using advanced light source technology, the new full LED headlamps produce a more powerful light for more precise illumination and clarity, allowing you to better detect obstacles and navigate the road ahead.

Smart key and Button Start

When you have the Smart Key with you, you can simply access your car and start the ignition with a mere push of a button.

Rear-view Monitor with Parking Guidance

The rear-view camera projects dynamic, bending guidelines onto the image in the 8" dash display to recommend a path.

Overhead console lamp with sunglasses case

An overhead console helps you stay organized and keeps your sunglasses just where you can find them, while keeping your eyes ahead.

Rain sensor (SX only)

When it detects raindrops on the windscreen, the rain sensor activates the wipers accordingly.

Centre console armrest

The comfortable sliding armrest is coordinated with the interior trim and integrated with a console that includes two cupholders and a storage compartment.

Black Interior

Black artificial leather trim is embossed in a subtle diagonal plaid arrangement of micro-perforations for breathability. Consistently luxurious deep black trim on the doors and dash gives the interior an elegant ambience.

Stand out from the crowd

With its striking silhouette and muscular contours, the Stonic will always draw longing glances. But you can stamp your own extra personality on it by choosing to add upgraded wheels. After all, only you know what you want to say.

Cycle & Carriage Aftersales Service keeps your car in its prime

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and first-class service by well-trained professionals, using state-of-the-art technologies, diagnostic tools and Grade A genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 1 year or 20,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty and a 10-year engine warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.

On top of that, starting from 1 June 2014, your Kia car will come with a 10-year engine warranty, subject to a maximum mileage of 200,000km or 10 years, whichever is earlier. This engine warranty from Cycle & Carriage will take effect immediately after the expiry of the manufacturer's.
