Genuine Parts

Genuine Parts

Air con filter keeps your vehicle cabin air clean by filtering away harmful and undesirable particles (such as dust, ticks, pollen and bacteria) from external air that may enter your vehicle through the air conditioning system. Genuine air con filter goes through extensive and vigorous tests to ensure the highest quality and performance.

## Genuine vs Counterfeit Parts Comparisons

### Dust Filtering Test

The genuine air con filter outperforms counterfeit versions in the Dust Filtering Test, trapping particles from the exterior of the vehicle more effectively.

Illustration of air con filter with dust filtering test.

### Heat Resilience Test

Heat resilience tests prove that counterfeit cabin air filters catch fire more easily than genuine filters. Using counterfeit filters can compromise the safety of you and your passengers.

Heat-flame resilience test

### Dust Filtering Rate

Over time, you may notice reduced airflow from your vehicle's air conditioning vents. Dust Filtering Rate tests prove that genuine air con filters result in stronger, improved airflow from the air conditioning vents as compared to counterfeit filters. This is because genuine air con filters do not get clogged as easily as counterfeit ones.

Experience a higher rate of airflow with genuine air con filters

## Kia Air Con Chemical Cleaning & Refresh

Cleaner, fresher air for  
you and your loved ones

The Power to Surprise

## Benefits Of Caring For Your Air Conditioner

### The importance of servicing your air conditioning system

Your vehicle's air conditioning system consists of both the air con filter and evaporator. The air con filter blocks undesirable particles such as dust from entering your vehicle through the air conditioning system. However, it takes more than just a clean air con filter to keep the air in your cabin fresh.

The evaporator located inside your vehicle's air conditioning system cools the air passing through it. High humidity makes it an easy and ideal breeding ground for bacteria and fungi in the evaporator coil. Not only do they cause bad odour, they may also cause asthma and infections.

Therefore, other than replacing the air con filter at recommended intervals, it is also important to periodically clean the evaporator to keep you and your passengers comfortable and healthy.

### How often should you service your air conditioning system?

It is strongly advised to replace the air con filter and clean the evaporator regularly for your health and comfort. Servicing the air conditioning system regularly ensures circulation of cool, clean and fresh air in the vehicle.

## Why Choose Kia Air Con Chemical Cleaning & Refresh?

### Kia Air Con Chemical Cleaning & Refresh

- Eliminate bacteria, fungi, algae and microorganisms
- Include application of evaporator cleaner
- Optimise performance of cooling system
- Provide long-term deodorisation
- Purify air stream from evaporator coil
- Remove unpleasant odours
- Sanitise air conditioning unit
- Unclog fin passages

The air conditioning system is disinfected and unpleasant odours are removed with the use of a cleaning technology that eliminates bacteria, spots and mould to provide fresh and clean air inside the vehicle.

#### Prices

Option 1 : Cleaning of air con evaporator coil and servicing of air con filter.  
• **\$65** for 1 service  
• **\$208<sup>^</sup>** for Plan with 4 services (U.P.: \$260), plus 15% off air con filter parts purchase.

Option 2 : Cleaning of air con evaporator coil and replacement of air con filter.  
• **\$102** for 1 service

<sup>^</sup> CARE Plan Members enjoy additional 10% off.

Prices are inclusive of 7% GST and subject to change without prior notice.

### Kia Antibacterial Cabin Refresh

Antibacterial Cabin Refresh cleans and disinfects the cabin, removing any unpleasant odours. Bacteria, spores, mould and microorganisms are eliminated and prevented from regenerating for a period of time. It deodorises upholstery as well as carpets and refreshes the entire cabin.

To keep your vehicle in optimal condition, it is strongly advised to refresh both the air conditioning system as well as the passenger cabin on a regular basis.

#### Prices

**\$38** (antibacterial cabin refresh)  
Top up **only \$19** when you purchase Option 1 or Option 2.

Prices are inclusive of 7% GST and subject to change without prior notice.

All Kia vehicles come with a 5-year unlimited mileage factory warranty. In addition, all genuine parts replacement and repairs come with a 2-year or 40,000 km warranty, whichever comes first. Genuine parts always come with warranty, unlike non-genuine parts.
