## ENGINE ADDITIVES

The Power to Surprise

## Keep Your Engine in Tip-Top Condition

Maintaining your vehicle's accelerating power, minimising loud engine noises and reducing vibrations while the car is idling – these are some of the ways your vehicle benefits from the use of our engine additives.

Comprehensively formulated, tested and proven, they clean and protect your engine to give you a smoother, more comfortable drive and substantial savings on maintenance in the long run.

### FUEL SYSTEM CLEANER

Cleans and removes carbon and gum deposits from your vehicle's fuel system, injectors, intake valves and combustion chambers, so you can enjoy improved fuel economy and enhanced acceleration power.

### ENGINE FLUSH

Disintegrates and removes troublesome contamination from your engine such as carbon deposits and sludge, so you can enjoy restored engine performance and enhanced acceleration power.

### ENGINE OIL TREATMENT

The Molybdenum-Dithiocarbamate (MoDTC) content protects your engine's moving parts and acts as a protective shield against oxidative deterioration of your engine, so you can enjoy reduced wear and tear, as well as a smoother and quieter drive.
