# Carnival

# The new Carnival

Introducing the look of innovation from the undisputed No.1. With refreshed styling for a more refined presence, a spacious and luxurious interior, and a balanced driving experience, the new Carnival fills our daily lives with enriching experiences.

Aurora Black Pearl (ABP) / Specifications above may vary by trim level, seating capacity per model, engine and options selected.

Ivory Silver (ISG) / Specifications above may vary by trim level, seating capacity per model, engine and options selected.

# EXTERIOR

The more magnificent and stylish design provide sensibility to this unrivaled large-size family RV.  
 The modern yet sophisticated details blend seamlessly with your fashion style and your family's lifestyle.

# Carnival GRAVITY

A bolder and more intense design transforms the original Carnival into Carnival Gravity. The dark-colored radiator grille and wheels designed exclusively for Carnival Gravity give it a unique look that goes beyond the ordinary family RV.

Exclusive Black Radiator Grille

Smart Power Sliding Door

## With your own scale

With its versatile use of space, the Carnival offers enrichment and convenience for every family member on board.

## INTERIOR

Anchored by a panoramic curved display, the interior distinguishes itself with state-of-the-art convenience features in a neat layout.

Navy Gray Interior / Specifications above may vary by trim level, seating capacity per model, engine and options selected.

Panoramic Curved Display

KRELL Premium Sound

Smartphone Wireless Charging System

Electronic Shift Dial

# CONVENIENCE

From driving comfort to care, it's full of thoughtful touches that fit into the daily routines of users who are familiar with a variety of digital devices. The infotainment system and convenience features for your family bring joy and meaning to every moment spent together.

## 01. Digital Center Mirror

The combination of a camera and digital mirror gives you a clear view of the rear, even in low-visibility conditions.

## 02. Ergo Motion Seat for the Driver

Controllable air pockets in the seats offer optimum comfort and stretch, working in conjunction with the driving mode or vehicle speed to ensure optimal lateral support.

## 03. Fingerprint Authentication System

You can unlock the door and start the engine with your pre-registered fingerprint using the Kia Connect service, even if you don't have the key. With fingerprint authentication, you can easily set up a personalized profile, deactivate valet mode, and use the Kia CarPay features more securely.

## 04. UV-C Sanitized Armrest Compartment

Ultraviolet sterilization inside the console storage box conveniently sterilizes daily necessities, such as your mobile phone, wallet, and mask. A single press of the switch activates sterilisation mode for 10 minutes and the sterilisation LED automatically turns off if the armrest is opened during operation.

# TECHNOLOGY

From boarding to staying informed on the go, every aspect of the Carnival has been enhanced for greater ease and convenience, reflecting the way we use smart devices in our daily lives. The never-ending stream of cutting-edge technology never ceases to amaze.

## Kia Digital Key 2

iPhone, Apple Watch, or Android phones (e.g., Samsung smartphone) can be used to lock and unlock the doors and start the car, and up to 15 devices can share these functions.  
※ For more information on compatible devices, please refer to the Kia Connect website.

## Built-In Cam 2

The high-resolution front and rear cameras produce superior video quality day and night, and offer a range of features including audio recording, a large external memory, OTA functionality, and driving information storage and playback (linked to the map). The Kia Connect app transmits impact detection video clips during parking and provides status information on the built-in cam.

## Head-Up Display

The 11" high-definition Head-Up Display shows key driving information in the same theme as the instrument cluster and navigation system.

## Over-the-air Software Update

If a new software update is available, it will be downloaded and installed wirelessly after your approval when the vehicle is parked or when the engine is turned off.  
※ The screen image of the infotainment system may change with updates.

## Surround View Monitor

Shows the image of the vehicle's surroundings to assist with safe parking.

Specifications above may vary by trim level, seating capacity per model, engine and options selected.

**Multi-Zone Voice Recognition**

Call the car by saying "Hey Kia" (the speech recognition call words). Passengers in the rear seat can play the music they want or even control the air conditioner. A variety of vehicle systems can be controlled with voice recognition. Separate voice-recognition positions for the driver's seat, the front passenger seat, and the left and right sides of the second row ensure optimal connectivity and ease of use for each occupant.  
 ※ Multi-zone voice recognition coverage: windows, seats, air-conditioning control, etc.

# SPACE

From the Dynamic Body Care integrated into the 2nd row seats to Multi-zone Voice Recognition, Carnival is packed with premium interior and convenience features. All passengers can enjoy a personalized travel experience while communicating securely with each other.

**01. Dynamic Body Care Seats for 2nd Row (7-seater only)**  
 Second-row seats with back and calf massagers are designed to help passengers relax and reduce fatigue.

**02. Ambient Light**  
 The ambient light features a three-dimensional pattern engraved on a luxurious insert film that creates a multitude of colors in three dimensions.

**03. Illuminated Seatbelt Buckles for 2nd Row**  
 The illuminated seatbelt buckles make it easy to see if they're fastened at night.

**04. Type-C USB Ports**  
 USB charging ports are also available in the 2nd and 3rd rows to ensure that all passengers can use their mobile devices with peace of mind.

# Carnival HYBRID

You can enjoy driving with Carnival Hybrid models which features improved fuel efficiency and quietness. KIA Hybrid technology enables smooth driving and improved ride quality on urban roads as well as the case of long distance travel.

### E-Ride

You can enjoy stable ride quality by controlling bumpings with acceleration/deceleration of the drive motor when passing bumpy places including speed bumps.

### E-Handling

Agility and stability in starting and exiting a turn are improved by accelerating/decelerating the drive motor, improving the driving performance when turning the vehicle (e.g. changing lanes or cornering).

### E-EHA (Electrically Evasive Handling Assist)

You can experience more enhanced turning performance based on E-Handling with the Driver Evasive Handling Assist activated when the risk of front collision is detected.

### Dynamic Torque Vectoring

You can experience stable cornering performance when turning the vehicle by applying differential braking to inner driving wheels and by compensating additional torque to outer driving wheels.

**Highway Driving Assist 2**  
 Maintains a safe distance from the vehicle in front on highways and motorways, and helps the car stay in the middle of the road at the set speed, even when cornering.  
 Moves the car to the other side of the lane if it gets too close to the vehicle next to you while driving.  
 Changes lanes automatically when you turn the direction indicator switch on the steering wheel to the desired direction above a certain speed.

# ADAS

The advanced driver assistance systems takes things a step further, adapting to different driving situations to add comfort and safety in an even more fine-tuned manner. Advanced technologies that alleviate even the slightest driving stresses help you appreciate the true value of a premium large-size RV at every turn.

**01. Rear Parking Collision-Avoidance Assist**  
 If there is a risk of collision with an object or pedestrian behind you while reversing, a warning is activated. If the risk of collision increases even after the warning, the system will apply the brakes to prevent a collision.

**02. High Beam Assist**  
 The high beams are automatically adjusted based on detected ambient light sources and illumination intensity, including the headlights of vehicles opposite and in front of you.

**03. Rear Cross-Traffic Collision-Avoidance Assist**  
 If a collision with a vehicle approaching from the left or right is anticipated while reversing, a warning is activated. If the risk of a collision remains high after the warning, your car will automatically intervene with braking assistance.

Remember that the advanced driver assistance systems are only designed to help the driver maneuver, so use caution while driving. / Functions may not operate seamlessly depending on the environment and driving conditions. For more details, refer to the Instruction Manual. / The configuration of the above specifications varies by trim, number of seats, engine, and optional features.

**Forward Collision-Avoidance Assist**

Monitors the surroundings while driving, warns if there is a risk of a collision, and automatically assists braking if the vehicle in front suddenly slows down after the warning, or if there is an increased risk of a collision with a car, motorcycle, pedestrian or cyclist ahead.  
 Automatically assists braking if there is an increased risk of a collision with a vehicle or motorcycle approaching from the opposite direction when turning left at an intersection with the indicator on, or with a vehicle approaching from the side of an intersection when driving straight through.  
 Also it provides automatic braking assistance if there is an increased risk of a collision with a vehicle or motorcycle approaching from the front while driving in your own lane, and automatic evasive manoeuvres assistance if there is a risk of a collision with a vehicle or motorcycle approaching from the front or with a vehicle or motorcycle ahead in the next lane when changing lanes.  
 Automatically assists with evasive maneuvers if there is a risk of collision with a vehicle, motorcycle, pedestrian or cyclist on the edge of the lane ahead, or a risk of rear cross-traffic collision when changing lanes.

**Remote Smart Parking Assist**

The driver can move the car forwards or backwards remotely from outside using the Smart Key.

**Specialized Control for Congested Roads**

Unnecessary operations caused by repeated accelerations/decelerations are reduced and riding quality is improved by strategically changing the shift pattern and the engine start timing when the road is judged to be a low-speed congested section after combining data on road information and driving status on the navigation.  
 ※ Specialized Control for Congested Roads is an exclusive specification for Hybrid models.

**Front/Side/Rear Parking Distance Warning**

Alerts the driver at low speeds to avoid colliding with objects around the vehicle.

**Lane Keeping Assist**

Detects the lane and helps you drive by keeping the car centered in the lane.

**8-Airbag System\***  
 In addition to the front-center side airbags, a total of eight airbags, including a driver's knee airbag, driver and front advanced airbags, 1st-row side airbags and rollover-sensing curtain airbags, further protect occupants in the event of an accident.

# SAFETY

Advanced safety features proactively eliminate risks, large and small, to keep you and your family safe. Regardless of the situation, it keeps everyone as safe as possible through proactive and comprehensive responses.

## 01. Steering Wheel Vibration Warning

This intelligent safety technology utilizes steering wheel vibrations to alert the driver of potential collisions with a vehicle ahead or behind on either side, or if the car is about to drift out of its lane.

## 02. Rear Occupant Alert

Utilizing on-board radar sensors, it detects if an occupant remains in the rear seat when the rear door is opened, and alerts the driver via a warning message on the cluster, an audible alarm, and a Kia Connect text message to check the rear seats.

## 03. Safe Exit Assist

If a vehicle is detected on either rear side when you are about to open the sliding door, it prevents the power sliding door from opening automatically to avoid an accident.  
 ※ Limited to the first attempt to open the door.

### KIA Connect

Kia Connect is Kia's connected car service for wireless navigation updates, smartphone-based remote vehicle control, and emergency alerts for a safer and more convenient vehicle usage experience.

### Remote control

Users can remotely control various functions in the vehicle using smartphone apps.

### Safety and security

Emergency assistance through the Kia Connect center in the event of an airbag deployment or roadside emergency (24/7, 365 days).

### Maintenance

Vehicle maintenance services including diagnosis of breakdowns, driving information, and wireless updates.

### Navigation

Optimal route guidance using real-time traffic information.

### Streaming service

Use streaming services inside the vehicle without connecting a smartphone.

※ Complimentary 5-years of service upon initial enrollment with the purchase of a vehicle followed by 5 additional years of light service (SOS emergency dispatch, automatic notification of airbag deployment, monthly reports, traffic information).

※ A link to a streaming service subscription is required to use Kia Connect's streaming service ※ If your streaming service subscription only supports mobile devices, it will not be compatible with Kia Connect's streaming service.

※ For more information, visit Kia Connect's Kakao Talk customer service center (search "기아커넥트" through the Kakao Talk search window and befriend).

※ The features/range of Kia Connect remote control may vary depending on trims and options.

※ The leather seats use a combination of leather and artificial leather. / Specifications above may vary by trim level, seating capacity per model, engine and options selected.
