Android Auto
Quick Start Guide
Android Auto works by projecting a customized version of a compatible Android smartphone onto the in-car display after the phone has been plugged in to the car via USB. Utilize your Android™ device to gain access to maps, communication, and compatible music apps. This opens up the possibility to use mobile apps behind the wheel such as Google Maps, Google Play Music and Google Now.

APPS ARE INSTALLED VIA GOOGLE PLAY STORE
To access the necessary apps that utilize Android Auto, go to the Google Play Store on your Android phone.

DISCLAIMERS: Distracted driving can result in a loss of vehicle control. Never use a handheld device or vehicle system that takes your focus away from safe vehicle operation. Navigation is for information purposes only, and Kia does not make any warranties about the accuracy of the information.

- Apps use your smartphone data service. Normal cellular service rates will apply.
- Android auto features may operate differently than on your phone.
- Compatibility with third party apps is not guaranteed.
- Message and data charges may apply when using Android Auto.
- Android Auto relies on the performance of your phone. If you experience performance issues: Close all Apps and then restart them. Disconnect and reconnect your phone.
- Using the USB cable that was provided with your phone is recommended.
- When Android Auto is active, your in-vehicle voice recognition system is disabled and all requests will be using Google voice actions.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Kia is under license. Other trademarks and trade names are those of their respective owners. A Bluetooth® enabled cell phone is required to use Bluetooth® wireless technology.

Android™ is a trademark of Google, Inc.
SPOTIFY® is a registered trademark of Spotify AB.
iHeartRadio® is a registered mark of Clear Channel Broadcasting, Inc.
GOOGLE MAPS ON ANDROID AUTO FEATURES:

- Voice-guided navigation
- Live traffic information
- Lane guidance
Android Auto utilizes Bluetooth® to make phone calls. Bluetooth® is automatically connected when your Android™ phone is plugged in to your Kia via USB cable.

CALL and END CALL buttons are available on the steering wheel.
Google Now through Android Auto offers information about the current weather, appointments, travel routes, app status and call history.
By pressing the **HEADPHONE** icon, a list of available apps will appear on the display.

When a music app is enabled, basic play controls appear on the display. Steering wheel controls work with Google Play Music but some third party apps may not be compatible.
With Google Voice Recognition, Android Auto responds to your voice commands in order to:

- Send or reply to texts
- Make phone calls
- Navigate to a destination
- Play music

Press the **GOOGLE** icon on the top right corner or press the **Push to Talk** button on the steering wheel for more than two seconds to activate the voice recognition.

Speak your command and it will be interpreted through the Google voice action session.
HARDWARE REQUIREMENTS:

- Android phones with Android 5.0 Lollipop or higher. Recommend to always update your phone to the latest OS release.
- Use the USB cable provided with your phone.

SOFTWARE REQUIREMENTS:

The following apps are available in the Google Play Store for free:

- Android Auto
- Google Maps
- Google Play Music
- Google Now
- Google Voice Recognition

There is also a wide selection of third party apps that you may link with Android Auto. Please check their respective information for compatibility.
1. From an Android Auto compatible device, download the **Android Auto** app from the Google Play Store.

2. Open the **Android Auto** app and proceed with on-screen instructions to complete setup on the mobile device.
1. Press the **SETUP** hard key.

2. Press the **CONNECTIVITY** icon.

3. Check the box for Android Auto to enable Android Auto.

4. Connect the Android™ device with the vehicle using the USB cable provided with the phone.

5. From the vehicle’s home screen, press the **Android Auto** icon to launch Android Auto.
1. Press the **MICROPHONE** icon from the vehicle’s Android Auto screen.

2. Say “**Navigate to [address]**” to begin navigation.

3. Or from your Android™ device, start navigation directions with Google Maps.

4. In the vehicle’s Android Auto home screen, press the **MAP** icon at the bottom left corner to view navigation.

**QUICK TIPS**

**Android Auto Unavailable on the Console**

- Check if your phone is connected via USB.
- Ensure “Car Mode Enabled” is activated.
HOW TO MAKE PHONE CALLS

1. Press the **MICROPHONE** icon from the vehicle’s Android Auto screen.

2. Say “Call [Name or number]” to dial.

3. Or from your vehicle’s Android Auto screen, press the **PHONE** icon.

4. To choose the option to dial a number, listen to voicemail, view call history, or view missed calls press the **MENU** icon located at the top left.

QUICK TIPS

**Adjusting Voice Feedback**

✔ To adjust the quickness (rate) of speech on your Android Auto, go to your Text-to-Speech options on your phone.
If this message is shown, your phone needs to be paired with the vehicle through Bluetooth®. If five phones have been paired to the vehicle in the past, it is necessary to delete a paired phone in order to pair your phone.

1. Press the PHONE button on the steering wheel.

2. Select YES button on the screen.

3. Once on the Bluetooth® Connection menu, you may delete one or more devices.
HOW TO LISTEN TO MUSIC

1. In the vehicle’s Android Auto screen, press the HEADPHONES icon.

2. Select the music app desired.

3. Once a music app is selected, song information will be displayed on the screen.

QUICK TIPS Voice Recognition with Music Apps

✔ Google Play Music is the only music app that can be controlled via voice recognition. Third party music apps, such as, Spotify, iHeartRadio do not support voice recognition.
When audio cannot be heard, when using third party apps, such as Spotify or iHeartRadio, perform the following:

1. Press the music station’s name.

2. Select an option of your choosing.

3. Select a station or song. This resets the music stream.
